Torrents

Spreading With Torrents is very Easy You Get very Good results

Now the 1st thing You Need is UTORRENT

www.utorrent.com

Then You Need Some Proxy Client I Personally use HOTSPOT shield Or You Can use Paid VPN
Or You Can Use Proxies

Now You Will be Thinking that how Can i make Torrents So go Here

<https://hackforums.net/showthread.php?tid=224368>

Very Nice TUT By epicwin

Now Upload Your Torrent on Public Sites Like The Famous And Best

#.org

www.mininova.org

www.isohunt.com

www.torrentreactor.net

and many more google it

You Can Upload Your torrent on These Sites also

www.demonoid.com

www.exdesi.com

Upload A Torrent on Something Unique And Popular video or software or music.

While Doing This stuff you have to bind Your file And Crypt It .

Ok Now We Finish With The torrents part

Chat Rooms

Spreading Via chat Rooms and yahoo Messenger

1st make a id With a Girl name ..

And goto Chat Room and join any Chat Room

Join Romance and Love (recomended)

Then many Users will pm You and say them "Do you Want To See my pics here on Yahoo."

If They say yes then send them your virus.

if they says that i cant download then say goto

<http://www.katzbabes.com/babes/>

And download any pic which looks gud and it should not be nude

And then removethe katz logo in paint

And show them if they say more then say i dont have more pics you can see my video i visited to the beach then they definately gonna download ?

Or

You Can goto hackers lounge of yahoo chat rooms and post "wanna learn hacking then buzz me" and then they will buzz you tell them that you need some tools for hacking so rename your server to BEST HACKING TOOLS or anything you feel like but ut should have word hacking. and then say them "download this file and open it and run it then type the email address of the victim and then press on hack then after 0 mins you will get his/her pass" send this as soon as you send them the

file.if they say that this is not working then tell him "goto your c drive and paste that software there and run it" . and after that ignore them.

Do the same In chatrooms also this is the most powerfull for me

Youtube

Spreading Via YOUTUBE is very easy

All you have to do is just have to see that which song is very famous

Ok for this download any song which is a trailer

Then bind your virus with it and then a post a video

Like if you have downloaded 3 idiots – give me some sunshine promo

Then rename it to 3 idiots – give me some sunshine full song DVD rip

And bind your virus with it

and upload it to any host

now what you have to do is that upload it on youtube the 3 idiots – give me some sunshine Full song DVDrip (unbinded file original file)

Once your video has uploaded and been processed, go to

'[i]Annotations' and create a massive one stretched out over the entire video so it covers your video completely:

Then Write Like this [i]

Due to copyright reasons and YouTube's terms of service, this video cannot be displayed

To Watch Full Video You Need o Download Its Original File

That is Here In the Description Or Download From here
yourdownlaodlink

Warez

Spreading Through warez

Now What We have To Do Is have to Go To

<http://www.katzforums.com/>

<http://www.warez-bb.org/>

www.amaderforum.com/

www.warez.com

<http://thephoenix-forums.com/>

Now post there Any good Stuff Like SOFTS,GAMES,XXX

Dont Forget To bind it With your Virus

If you are Posting any software and suppose it is very big to upload then we will go to katz.cd and

for eg we want PS CS4

<http://#.com/files/342015080/MYEXTADOBBBBBACKUP.part1.rar>
<http://#.com/files/342014513/MYEXTADOBBBBBACKUP.part2.rar>
<http://#.com/files/342015341/MYEXTADOBBBBBACKUP.part3.rar>
<http://#.com/files/342018326/MYEXTADOBBBBBACKUP.part4.rar>
<http://#.com/files/342013980/MYEXTADOBBBBBACKUP.part5.rar>

There are Five Links In this So We Will Add another File in this with our virus

Find any keygen of any software

And rename it to [i]MYEXTADOBBBBBACKUP.part6

Now Upload It To RS

And Now Post you Software With The last File So We Will have 6 Parts Now

If You are going To post Porn Then Post it like this Full Episode Of BRAZZERS Video Updated Today + Contains Passes Of various Porn Sites Like NA,RK

Upload any PORn video Or If Your download Speed sucks Like Mine Then Do As We Did while Posting Software

And Add Extra File with your virus

NOTE:Be sure To Rename Your VIRUS with The Link name Otherwise People Will not Download it

We Have Completed With The Warez part [i]

Answers Sites

Well This IS Brand New Method go to

<http://answers.yahoo.com/> and make an account if you don't already have one. Go to advanced search and search for key phrases like "where can I download", "where to download", etc. Search for keyword match in questions.

On the results page, open up each of the links in a new tab on your browser and copy/paste the next answer:

"Here, I found this link on a forum. Hope it works for you: ###"

"I got it from this link: ###"

"You can download that from here: ###"

"My friend got it from here: ### . She says it worked well for her."

Mix it up and rinse and repeat. Do this with all the questions that you find and then to scale it up create multiple accounts and post questions on how to download some of the latest games or movies or any other thing that you think might be interesting to a lot of people. Post an answer with the link from another account, then go back and vote your answer as the best answer. Now Yahoo answers is just an example that is real easy to understand and implement and you are probably familiar with it. But think about it. You can do this – for one – with any answers site (wikianswers, answers.com), but you can also "contribute" on any forum or chatroom where people request stuff. On these places you will probably want to use real files, so that people who are requesting at least get what they are looking for.

Another thing you can do is run the same search query on google: "where can I download" and go from there.

I can't give you the exact thing to do and the right sites to post on. The places you find on your own will be yours to profit from and nobody else will know about them unless they find them by accident.

We Finish With The Answers Part.

Craigslist

[i]Basically you get a webcam video of a hot girl and take some screen caps and upload them to filescashout.com.

Post on craigslist in the Adult Gigs section that you want someone to rate a video of yourself because you are thinking about going into the adult business. Say you don't have to be a professional but you need to be professional about it or mature. Give your measurements also and make yourself sound legit. You will get a bunch of emails of guys trying to be professional.

This is what i would email them back:

"Hey (name here), thanks for responding, im excited to hear what you think of my video. heres a pic from the video. and the link is below.

i would like a rating of 1-10 at the least and any other comments are welcome.

Thanks

-"Angela" **Put D/L link here**

Don't forget to reword the whole thing. This has been used thousands of times before.

This is just an idea, but get creative and you will come up with tons of great new ones. Clue: Jobs section/application form /pdf/corrupted file .

This was just for a quick blast of cash. In the next email I will start showing you methods that will keep getting you money on a recurring basis. Set and forget.

Until then, make sure you put all of this into practice. It's so easy, it's unbelievable. You just have to take the decision to do it and do it.

Ha, I'm actually surprised that you posted the yahoo answers method. I've been using this for a while now and it works very well, since its not that popular yet.

Anyways, nice tutorial :D

Also everyone, it is pretty easy to get banned from #.org and its a very good site for spreading, so I would avoid it at all costs.
