Thread: [\[TUT\] How to setup a keylogger \[TUT\]](#)

Unacknowledged - July 18, 2012, 9:56 pm

Hello there guys i just wanted to make a tut on how to Keylog someone. This method works for me so please feel free to do this.

First you want to go to <http://project-neptune.net/download/> and download Project neptune keylogger. Now you have all the downloading done. For the Keylogger to properly build the server, Turn off your firewall on your pc. Well then.. Lets get started shall we? ok now start off by running project neptune as an administrator.

[IMG]http://i1072.photobucket.com/albums/w373/xtacy11/Screenshot_1-1.png[/IMG]

--Now this will pop up

[IMG]http://i1072.photobucket.com/albums/w373/xtacy11/Screenshot_2.png[/IMG]

Now Change exampleserver@exampleserver.com to your email on both selections and type your email password in the password field. Next change the minutes to however long you want :NOTE: this is the amount of time in between logs that will be sent to you. for example if i set it to 60 minutes. every hour a log will be sent to you on what your victim is typing.

Now that you have that part set up, click the System wide tab and it should look like this

[IMG]http://i1072.photobucket.com/albums/w373/xtacy11/Screenshot_1-2.png[/IMG]

:NOTE: The only thing you should change on this is disable task manager by process killing.

Next you want to click the Extra Options tab. :NOTE: Do not edit anything in the installation tab. Unless you know what your doing. Now hit the check mark on the message and type something similar to what i have here.

[IMG]<http://desmond.imageshack.us/Himg29/scaled.php?server=29&filename=screenshot2fe.png&res=landing>[/IMG]

Now go to the server creation tab, it should look like this.

[IMG]<http://desmond.imageshack.us/Himg37/scaled.php?server=37&filename=67421984.png&res=landing>[/IMG]

Now the things that i have circled in blue are the only things you should change on this page. click each refresh button 10 times and change the Service name to something more creative like svchost.exe or anything that you feel is not suspicious.

Now hit generate new server. You have successfully created your keylogger. ;) Go get some people to use it on. You can get Emails. And Other accounts. You now have a KeyLogger ?

Kenn. - July 18, 2012, 9:57 pm

Will be trying this soon, will tell results.

Unacknowledged - July 18, 2012, 9:58 pm

im positive it works, ive currently got someone keylogged and it works just fine for me. :) Im sure it will work just fine for you aswell

If your having any problems ill be sure to help you with them aswell ;)

TreeHitter - July 19, 2012, 2:07 pm

Good shit xTacy I will test it out myself :}

sujendra nath - July 19, 2012, 8:15 pm

super cool dude...good tut on keylogging

LilDub - July 19, 2012, 8:28 pm

thanks it help me alot :0

this worked legit

sujendra nath - July 19, 2012, 8:29 pm

u didnt include the crypter. can u provide the link for the crypter

9111 - July 19, 2012, 8:34 pm

good tut

keep up the good work

202020202020

Unacknowledged - July 19, 2012, 9:45 pm

<http://www.mediafire.com/?5hrx31e8ps74n2y> is the crypter link, its in the tut. And thanks to all the people that liked it ;) didn't take long to make the tut

Goochysmokingloveglock - July 19, 2012, 10:00 pm

Super helpful, I appreciate this! I hope to see you post more tutorials in the future.

Unacknowledged - July 19, 2012, 10:07 pm

Im sure i will :) thanks Goochy. --

snowzor - July 20, 2012, 1:28 am

Project Neptune really is the best but the crypterreally works? it is FUD? or at least UD? I tried a lot of crypters but none seems to be working properly..

Unacknowledged - July 20, 2012, 1:55 am

The Crypter Does work and yes it is FUD. I have tested this and scanned it with AVG And Windows Defender, right now those are the only 2 AV's i have if you would like to use it on a virus and Scan it then please do. it is FUD

ljbuibjkdcohicouvid - July 20, 2012, 6:40 am

Great tut, scanned my server at NoVirusThanks.org and these were my results: Code

Asquared 15:35:04 5.1.0.3

Avast 15:35:04 5.0

AVG 15:35:04 10.0.0.1190

Avira 15:35:04 7.11.7.12 TR/Dropper.Gen

BitDefender 15:35:04 7.0.0.2555 Gen:Variant.Barys.279

ClamAV 15:35:04 0.97.4

Comodo 15:35:04 1.0

DrWeb 15:35:04 5.0.2

Fprot 15:35:04 6.0

IkarusT3 15:35:04 T31001097

Panda 15:35:04 10.0.3.0 Generic Trojan

STOPZilla 15:35:04 5.0.0.0

TrendMicro 15:35:04 9.200.0.1012

VBA32 15:35:04 3.12.0.300

Unacknowledged - July 20, 2012, 2:04 pm

Thanks for all the Comments, If you liked this Tut please tell me :)

Psychogenic - July 20, 2012, 9:08 pm

Made it. Haven't had anybody use it yet. Hopefully I'll get somebody soon. Vouch! :D

skywalker676 - July 21, 2012, 1:19 am

Only 3 Threads Found

<http://vscan.novirusthanks.org/analysis/f18ee52f6de5f7f6bf40d81b0bf360d6/c2VIZHMzLTA5LWV4ZQ==/>

Iron-warrior - July 21, 2012, 3:40 am

Can this be used to hack a facebook account? Is it possible to make it look like a txt file or something? and will it damage the file? How to do it?

manual calais - July 21, 2012, 4:01 am

how do you hide the file as something else and transfer it to somebody elses PC?

UniversalACS - July 21, 2012, 3:27 pm

I like this. Helpful tutorial. Nice work!

And @manual look up threads on spreading.

manual calais - July 21, 2012, 3:36 pm

ahh, thank-you very much uni, i'll have a look now. :)

Unacknowledged - July 21, 2012, 6:09 pm

Glad you all liked the tut, I Will be posting more in the future :) Thanks for all the comments

Omarion - July 22, 2012, 5:20 am

Thank you for creating such incredible guide/tutorial. Wishes and regards, Omarion.

-FanBoy- - July 22, 2012, 7:29 am

i cant get it to work when im in the crypter and click save it gives me an error even knowing u said i can name the xex to what ever i want ?

Catzbow - July 22, 2012, 8:06 am

i will try it soon, thanks.

|| TaCteR ||

Iron-warrior - July 22, 2012, 11:53 am

This was so cool until I had to download the STUB... It's not that I'm lazy to complete a survey, in my country, we don't even get one to fill... Come on man...

Unacknowledged - July 22, 2012, 1:10 pm

Erm, The Stub came with the Crypter . rar . I'm not sure were you got a survey for any of that, Thanks to all the positive comments. :)

Vlad1k - July 22, 2012, 1:52 pm

I think Dark Comet is a lot better, because you can get passwords in under a minute. Does the crypter work with Dark Comet, and is it 100% FUD?

Unacknowledged - July 22, 2012, 2:58 pm

I Recommend a RAT Over a keylogger yes, but a Keylogger can be good for spying. And also, i

haven't used a Rat or this Crypter on a Rat Either, so i wouldn't know the results

Iron-warrior - July 22, 2012, 3:19 pm

Is there a anyway I can try it? Just to make sure it works. I have one chance to hack someone and I don't wanna screw it up ^^

Unacknowledged - July 22, 2012, 3:25 pm

just crypt your Server.exe and send it to your victim, make sure he opens it up. then whenever you set the time to. it will send emails of their Strokes to you

Iron-warrior - July 22, 2012, 3:30 pm

Just when I created the file, my kaspersky 2012 deleted it :s There's a new stub (20-07-2012) but it's on share cash...

Unacknowledged - July 22, 2012, 3:34 pm

oh, i didn't know there was a new stub at all. hmm, Maybe ill post a new crypter ASAP

Iron-warrior - July 22, 2012, 3:38 pm

Cool :) can you pm me once you upload it? Or maybe you should update the tut ^^

Unacknowledged - July 22, 2012, 3:39 pm

So it tells me i cant edit my post . so heres a new Crypter with a stub .. [Dead]

Iron-warrior - July 22, 2012, 4:17 pm

AV wouldn't let me download :/ I'm confused right now, no offense.

Unacknowledged - July 22, 2012, 4:20 pm

Me to, tbh . i didnt know there was a new Stub. and i had to find a new Crypter. the comments from that Crypter was all positive. im not sure -RageQuit

i guess this Tut was a bust, if i find another working crypter fully fud, ill post it . but till then, this tut looks dead

ASAP - July 22, 2012, 5:36 pm

This is a nice tut, looks helpful to the people who dont know who to setup a keylogger

EvilMe - July 22, 2012, 6:24 pm

Nice. thank you.

Nice. thank you.

Nice. thank you.

2legit2shit - July 22, 2012, 6:41 pm

How can this work if u didn't include where the keylogs are getting sent to?

Unacknowledged - July 22, 2012, 7:23 pm

(Jul 22, 2012 06:41 PM)2legit2shit Wrote: [\[CITE\]](#) How can this work if u didn't include where the keylogs are getting sent to?

Actually i did, they are getting sent to your email that you put in Project Neptune. Open your eyes mate

BlueDanishwow - July 22, 2012, 8:11 pm

Looks Neat might Try out is there anychance you could PM me the crypter so it sorks for cybergate

Unacknowledged - July 22, 2012, 8:25 pm

Never used a RAT Before so i dont know if the crypter works for rats man, Sorry ;(

Negatives - July 27, 2012, 3:25 pm

Crypter link is broken! D:!!! New one?

Chikyu Tenshi - July 27, 2012, 4:30 pm

Crypter Link Broken Guys, I Hope You Replace It Soon ^-^

Unacknowledged - July 27, 2012, 7:51 pm

Glad you all liked it :) Will be posting more tuts in the future :D

Austerity - July 27, 2012, 9:51 pm

Great tutorial thanks dude, going to try it out :) Hope it works ! :D

duhraheemz - July 27, 2012, 11:09 pm

Great tutorial, but can you re-upload the cryptor please?

Unacknowledged - July 27, 2012, 11:18 pm

Thanks , Glad you guys liked this Tut, Heres the link to the crypter.

<http://www.mediafire.com/?oe7c2ui7dcnxcad>

DimaVinner - July 28, 2012, 2:31 am

Thank you for your tutorial :)!

It's very helpful!

Unacknowledged - July 28, 2012, 3:25 am

(Jul 28, 2012 02:31 AM)DimaVinner Wrote: [\[CITE\]](#) Thank you for your tutorial :)!

It's very helpful!Glad you liked it mate :) Tell your friends about it if they are having trouble, and if anyone else is having trouble don't be shy and pm me. :)

overclucker - July 28, 2012, 3:37 am

Very nice tutorial! The best thing I learned from it was <http://dailycrypter.com/> I never would have found this, I'm glad it was in the title bar of the crypter.

Unacknowledged - July 28, 2012, 3:49 am

i dont trust that .rar file anymore than anyone else here would, JS. the .exe's name is Server.exe wich are most default names to keyloggers. and the images could have hidden viruses binded together with them.

Strongarm - July 28, 2012, 4:46 am

Awesome tutorial, thank you for posting this.

Unacknowledged - July 28, 2012, 5:10 am

(Jul 28, 2012 04:46 AM)Tr@ck3d Wrote: [\[CITE\]](#) Awesome tutorial, thank you for posting this.

No Problem man, im glad you guys liked this TUT :)

poopypies - July 28, 2012, 3:29 pm

I'm new to keylogging.. I have everything done except the crypting part.

Sorry if i have missed something, but the file you posted on your tut is missing because of

mediafire.

herrdeutschland - July 28, 2012, 4:13 pm

thanks dude , and i like very much this keylogger it s the best ^^

poopypies - July 28, 2012, 4:20 pm

ok i figured out how to do it.

now i have my crypted keylogger .exe file..

now how do i make it into a link so people can click it and get keylogged?

Op-Jax - July 28, 2012, 4:23 pm

thanks for the very nice tut. hope to see more from u :P

benkiller - July 28, 2012, 4:43 pm

The stub that this file contains will not let me uplaod it to the crypter. Any suggestions?

Unacknowledged - July 28, 2012, 8:30 pm

:TO ALL ABOVE: the newest updated Crypter from Daily Crypter dot com is

<http://www.mediafire.com/?pb0mkdawgfio344>

BenKiller you upload the stub into the crypter and your virus and then you crypt your virus, Virus is the keylogger.

And thanks to all that liked the tut again i apreciate that you liked it i will post more in the future :D

abodlanyer - July 29, 2012, 2:27 pm

Gonna try the crypter now. Thanks for sharing!

Unacknowledged - July 29, 2012, 8:39 pm

:NOTE: Alot of users have been telling me this doesn't work but i'm sure it does because i have keylogged someone with it and it works 100%. The problem you guys are probably having is that you aren't disabling your firewall when you build the server, the reason you need to turn it off is because it needs to generate the server properly... You Can disable the firewall, generate the server, then re enabled the firewall. Thanks -Bid

Unacknowledged - July 31, 2012, 6:02 am

Lol i guess this thread died. Glad i could help all the users that it worked for :) -Bid

Fossil - July 31, 2012, 6:10 am

Thanks very much.

Tutorial was very helpful.

I've had this for a while but I never knew how to use it.

10/10!

sonti - July 31, 2012, 6:18 am

Hey bro, the crypter link is down :c

Good tutorial !

shops - July 31, 2012, 7:43 am

When i save the server after i generate it i keep getting a massge saying it cant fin the file specified.

Middies - July 31, 2012, 8:18 am

Good tutorial on that and btw I never seen that stealer before.

Unacknowledged - July 31, 2012, 8:30 am

The Newest Crypter Link is - <http://www.mediafire.com/?pb0mkdawgfio344> To all above, Glad you guys liked it :)

shops - July 31, 2012, 8:51 am

Ever time i try to open my .exe in the crypter it says Windows cannot access the specified device, path, or file. You may not have the appropriate permissions to access the item. Even tho i am admin.

Unacknowledged - July 31, 2012, 9:04 am

(Jul 31, 2012 08:51 AM)shops Wrote: [\[CITE\]](#) Ever time i try to open my .exe in the crypter it says Windows cannot access the specified device, path, or file. You may not have the appropriate permissions to access the file. Even tho i am admin.

Make Sure you disable your FireWall. it's detecting it as a virus. Thats why its not opening for you.

shops - July 31, 2012, 9:06 am

I have it off and my av is disabled.

Unacknowledged - July 31, 2012, 9:15 am

hmm, im not sure whats wrong man. its not happening to anyone else. Maybe you can find another crypter and use that one :P

shops - July 31, 2012, 9:18 am

It not just that i try to open up Dark Comet and get the same the but when i use run to op it says You don't have permission to open this file contact the file owner or an administartor to obtain permission.

Unacknowledged - July 31, 2012, 9:22 am

This isnt a Tutorial on Dark Comet. Im not sure were you got Dark Comet from but this isnt the place for help :L Sorry

simon0242 - July 31, 2012, 9:45 am

The crypter download link wont work? Help me please?!

Unacknowledged - July 31, 2012, 9:47 am

<http://www.mediafire.com/?pb0mkdawgfio344> ive posted this link 3 times in the comments guys, Keep telling your friends that read this, this is the new link!

siecon - July 31, 2012, 10:11 am

nice tut dude but i just tried the crypter and its not fud it was 4/40 and the avira antivirus found it as a virus and the person i want to hack has avira can u help me???

Blocked - July 31, 2012, 10:16 am

Nice TuT really helped me out a lot I mean it keep it up.

The crypter i used at the time was Fud but the stub is outdated and doesnt work anymore, the newest one im not sure because i havent used it on someone yet. Im sorry bro, ill look for the most updated Crypter if i could find one :P

lost_for_words - July 31, 2012, 11:34 am

Thank you so much man, now I understand Keylogging like a whole lot more.

AnonTragedy - July 31, 2012, 11:52 am

Hey Bid! Nice tut. Crypter link is down though. Target doesn't have avast so I was going to use anyway. If you have any suggestions on a good FUD one please say so!

Unacknowledged - July 31, 2012, 12:37 pm

The crypter is in page 8 of the comments, i posted it in a link, Thanks for the feed back :D

AnonTragedy - July 31, 2012, 12:53 pm

Used Crypter and Neptune. Had all av and firewalls off. After crypting I turned microsoft sec essentials back on and it asked to send the crypted file to microsoft for malicious software testing. Cancelled out. Bad news.

Unacknowledged - July 31, 2012, 1:07 pm

The old crypter i had was fully fud :L The Stub on it outdated and now it doesnt work anymore so i used the updated one and now its just not fully fud anymore :L i wish i had a fud crypter still...

Dantesco - August 4, 2012, 7:04 pm

One "I like" for project-neptune and other for your tutorial

kashttl - August 4, 2012, 7:15 pm

Can you update and include a FUD crypter plzzz.....!!!

stolp - August 4, 2012, 7:51 pm

Helpful alot thanks man, i'd like to see more of these :p

mastermansachin - August 4, 2012, 11:44 pm

I like this. Helpful tutorial. Nice work!
awesome

& nice crypter..

Unacknowledged - August 5, 2012, 4:19 am

super cool dude...good tut on keylogging

sportyloc107 - August 8, 2012, 3:01 pm

man damn those surveys..i have did ove 20 and still no download link from daily crypter..i give up

Unacknowledged - August 8, 2012, 5:37 pm

(Aug 8, 2012 03:01 PM)sportyloc107 Wrote: [\[CITE\]](#) man damn those surveys..i have did ove 20 and still no download link from daily crypter..i give up

Dude, Lol theres like 3. To all the others thanks for the feedback i appreciate it! :D

Dr3w - August 8, 2012, 7:43 pm

Very good tut, easy to follow, helped me lots thanks :)

lktomi - August 8, 2012, 8:21 pm

Great TUT! Thank you .. just what I was looking for. Keep up the good work.

EDIT: crypt link is dead ... do you have another link?

Mw3 hackings1 - August 8, 2012, 8:24 pm

The crypter isn't working through mediafire, is there any chance you could fix this? Thank-you.

Unacknowledged - August 9, 2012, 3:06 am

Like I have said many times before guys! <http://minus.com/IARJKKNrFOhws> Is the crypter link now, I got that straight from dailycrypter.com , Easy stuff guys :)

+ Thanks for all the feedback guys :)

Mr.Green™ - August 9, 2012, 6:46 am

(Aug 9, 2012 03:06 AM)xXBidXx Wrote: [\[CITE\]](#) Like I have said many times before guys! <http://minus.com/IARJKKNrFOhws> Is the crypter link now, I got that straight from dailycrypter.com , Easy stuff guys :)

+ Thanks for all the feedback guys :)
Yeah but there is no stub... Just crypter.

SeventhS - August 9, 2012, 6:50 am

Nice TuT I may use this sometime soon

Lulz_Hammer - August 9, 2012, 8:10 am

I can say this is the best keylogger I've found, love the user friendly interface and ease of use. +1 from me for a good tut.

Mr Fox - August 9, 2012, 9:44 am

May try to make a few UI modifications thanks for the KEylogger and the Crypter... FOR FREE

seankrause1 - August 9, 2012, 9:51 am

Do you have any subs? I would gladly appreciate them :p

Mr Fox - August 9, 2012, 10:10 am

Looking for a stub for this please pm me if you have one

Unacknowledged - August 9, 2012, 10:17 am

All right, heres a stub link since you all cant find one apparently :P

<http://www.mediafire.com/?195h47zqbvfk8az>

+ Thanks for all the feed back guys! Keep posting dem :D

sportyloc107 - August 9, 2012, 10:49 am

avast keeps detected..crypter not working for me even after i try that stub u just posted...what am i doing wrong?? is it not fud??

Leexmeh - August 9, 2012, 10:55 am

Can someone make a tutorial for unknown logger?

me0007 - August 9, 2012, 5:11 pm

hey men could you please send me that crypter link i think it is deleted

Unacknowledged - August 10, 2012, 12:53 pm

(Aug 9, 2012 05:11 PM)me0007 Wrote: [\[CITE\]](#) hey men could you please send me that crypter link i think it is deleted

You can get it like everyone else gets it by going to dailycrypter.com and downloading the crypter..

sfrotshtein - August 10, 2012, 10:39 pm

great TUT man. but the crypter link is down. any mirrors?

RyderOnTheStorm199 - August 11, 2012, 1:41 am

Hey Bro, i am new to hacking, so i wanted to ask how do i target people to get keylogged, and does this keylogger work only on the pc that it is created on ?? please tell me , i am confused. thanks in advance :)

vista - August 11, 2012, 2:04 am

Nice tutorial bro ...thanxx for sharing with us :D

Unacknowledged - August 11, 2012, 12:59 pm

Thanks for all the feedback guys :) Please if you want to help me , Please click my adfocus links and i can buy L33T With it :) Keep posting the Feedback though guys!

Teck-off - August 11, 2012, 5:03 pm

sofinho - August 15, 2012, 2:16 pm

where can i get the crypter please!

xuoh - August 15, 2012, 3:28 pm

the crypter download link isn't working atm.

Unacknowledged - August 15, 2012, 3:54 pm

Guys Dailycrypter.com isn't free anymore, Sorry to say :(I'm sure you can find some on the giveaway section of this forum :}

Veigar - August 15, 2012, 4:45 pm

Sorry haha was going to tell you the crypter is gone didnt read the full thread thanks :)

anonymau5e - August 15, 2012, 7:39 pm

Excellent! I will be sure to check this out right now.

Vigor - August 15, 2012, 7:45 pm

Nice tutorial on my keylogger, mate.

Just to let everyone know, there'll be some updates to Project Neptune in the upcoming couple of days. This tutorial should still work fine for it, though.

Website's already been updated.

Vile Soul - August 15, 2012, 8:52 pm

darn the file for the cryptor was deleted but nice tut.

Unacknowledged - August 16, 2012, 3:19 pm

Thanks for all the feedback guys, If a new version for Project Neptune comes out I will be sure to post a new TUT on it.

BlackRegulator - August 16, 2012, 3:21 pm

Thanks for tut mate I will try this...

Unacknowledged - August 16, 2012, 3:50 pm

(Aug 16, 2012 03:21 PM)BlackRegulator Wrote: [\[CITE\]](#) Thanks for tut mate I will try this...
Thanks for your feedback :) I will be posting more in the future.

rosie123 - August 16, 2012, 3:50 pm

please message me the link about the stubb

Unacknowledged - August 16, 2012, 4:22 pm

(Aug 16, 2012 03:50 PM)rosie123 Wrote: [\[CITE\]](#) please message me the link about the stubb
Sorry but dailycrypter.com isn't free anymore. It was the crypter I used in this tutorial. There is no stub anymore. It's very outdated and doesn't work anymore.

jeremy555 - August 17, 2012, 12:37 am

Can someone please upload the FUB stub??? the link is broken ! please asap!

Dat4Rain - August 17, 2012, 12:48 am

Invalid or deleted file, seems like they deleted your crypter but anyway, thanks for sharing

Nice TuT

BTW I clicked ur 4 links, hoping you can get l33t sooner.

Zabibaaa - August 17, 2012, 1:28 am

Great tutorial! Really helpful information.

Misfits - August 17, 2012, 2:56 am

Hey thanks for the tutorial, i shall be testing it soon :D, however since the stub is outdated and isnt worth using can you please direct me to one that could help crypt my file? thanks alot

CC_AnoN - August 17, 2012, 5:10 am

nice tut thank you for sharing your knowledge :=0

Unacknowledged - August 17, 2012, 3:05 pm

Thanks for the feedback guys. Unfortunately I don't have anyone keylogged nor do I have a stub or a crypter. If you want to get a free crypter they give them away at the giveaway section of this forum :)

Hipx - August 17, 2012, 3:55 pm

Very nice post, thanks 4 the info.

Will try it

Flizer - August 18, 2012, 12:59 am

Im still a noob to all of this, so sorry if my question seems stupid, but is it possible to send a server over email? i logged myself to make sure the server worked, but when i encrypted it, it stopped working.

bboyrican - August 18, 2012, 2:43 am

Are u able to send this to ppl thru emails.. Or how exactly can you get this over to ppl?

AWBiggi - August 18, 2012, 5:09 am

the link to the crypter doesnt work plz help i am a noob

Judecca - August 18, 2012, 5:23 am

Will DarkComet work with this encryptor?

Unacknowledged - August 18, 2012, 7:49 am

Sadly dailycrypter.com isn't free anymore. The crypter I put in the tut is now outdated. I bet you guys could find some on the giveaway section of this forum.

fifflan - August 18, 2012, 10:30 am

super cool dude...good tut on keylogging keep it up!

RyderG - August 18, 2012, 11:57 am

LOL I'm gonna use this for runescape

TheLink - August 18, 2012, 4:16 pm

Useful tutorial, good job and keep up bro...

Jordrz - August 18, 2012, 4:56 pm

Thanks very much man. Very helpful!

Unacknowledged - August 18, 2012, 5:53 pm

:TO ALL ABOVE: I am really happy to see all the positive feedback and comments. I really being able to help you guys on keylogging :)

Misfits - August 19, 2012, 3:37 am

Okay so i was setting it up going through each part of the tutorial when i came across a problem...

when i tested email account information it came up with this...

"Email information invalid: The SMTP server requires a secure connection or the client was not authenticated. The server response was: 5.5.1 Authentication Required. Learn more at."

Anyone wanna give me some advice? really confused ?

Dooble - August 19, 2012, 3:52 am

Thanks alot dude, Will have to try this out later :)

TheCrackSmack - August 19, 2012, 6:09 pm

One of the better tutorials I've seen so far! Good work:D I'll definitely try this one out soon

Thanks for the feedback. It won't be detected though if you have a FUD Crypter.

Zaligo - September 24, 2012, 8:47 am

So if you keylog your teacher you'll be able to change your grades? :D

(Sep 24, 2012 08:47 AM)Zaligo Wrote: [\[CITE\]](#) So if you keylog your teacher you'll be able to change your grades? :DDepends on if she logs in to her account on your school website and she's and admin or a teacher rank and you successfully log it. Then yes :)

gamerjuicehd1 - September 24, 2012, 10:37 pm

Thx so much im pming u now!! It really Helps

Dat Kid Ian - September 25, 2012, 4:47 am

Awesome tutorial! I really hope to see more from you

samrokzz - September 25, 2012, 5:04 am

Nice tutorial .

Nice share dude

Unacknowledged - September 25, 2012, 1:20 pm

Thanks for all the positive feedback, :)

Voidlight - September 25, 2012, 2:06 pm

very helpful. thanks for the tutorial

Thanks for the feedback. I'm suprised my thread is still alive.

TehHaxxor - January 12, 2013, 2:57 pm

The last picture is gone, and i'm stuck at Server Creation..

basble - January 12, 2013, 3:42 pm

very helpful. thanks for the tutorial

elonOMG - January 16, 2013, 4:32 am

#Hello

Nice tuto dude , keep going.

Dr.Crane - January 16, 2013, 6:06 am

what is the benefit of using this over one of the commercially available ones? for instance sspro? apart from the fact you have to pay is it any better, easier?

Brutefrocer - January 16, 2013, 10:12 am

Where can i get a free FUD crypter?

Unacknowledged - January 31, 2013, 4:44 pm

Sorry that I haven't been on lately to answer all your questions. If you're still having problems, please, don't be afraid to private message me!

Kobbi1 - March 17, 2013, 3:41 pm

Lol with the firewall on it says TROJAN HORSE DETECTED and deletes the file i create :P

Would you kindly tell me How to disable my Firewall?
