Very trustworthy guy here...

Just bought his private HTTP Bot and I'm very happy with it...

Brilliant coder and Great support ...

I kinda took a look at the private source code. and he tested it. worked like a charm - GREEN 0/37

Good luck with sales dude.

You honor me that you're regular member like me.

because you prove that you don't have to be l33t or ub3r to be a pro.
