Thread: [\[TUT\] Hack Facebook Accounts \[WORKS\]](#)

emra - July 19, 2012, 12:26 pm

Hey guys! Ive been doing this for a while and i thought i should share it with Hackforums

Requirments:

- A cellphone that can receive text's
- A slave (must be in your friends list)
- Patience....

Step 1:

Pick a target and look on their profile and itl show the link to their page...

Step 2:

Pick a dialog

Dialog1:

You: Hey can u help me really fast?!?

slave: Sure what do u need?

You: I told a friend of mine that i dont have a phone and hes asking whos phone number this is: (Your number here), I told him its urs but he dosent belive me...

So can you umm put this as your phone number for like 5 mins??

slave: Ok how?

You: Just go to account settings and on the left it says mobile click on that abd put this number in: (Your number here) and company is: (Rogers, bell etc whatever phone company you use)

slave: K its asking for a confirmation code...

You: (You should get a confirmation code) Ok heres the code: (your code here)

slave: Kk done

You: brb in 5 mins!

Step 3:

Log out and click forgot password...

Then it ask for Facebook name, (The link we got in step 1)

Put it in and it shows:

☐ Email:

☒ Mobile:

Then click send code, Your phone should receive a pass change code, put it in and....

DONE!!!

To make sure they dont get their account back i sugest changing the email and deleting any other email registerd on the account.

Do you think the v i c t i m is so retarded that he/she would allow to add this? Fail.

Stilez - July 19, 2012, 12:29 pm

this is not hacking at all, + its been posted and deleted so many times, if anything it belongs in the social engineering section, but that has been closed down :(

Waffle - July 19, 2012, 12:32 pm

This could work if the victim is dumb. I suggest using a Dummy FB for this... But then again, you'll get fucked because they won't trust you.

Pi-ka - July 19, 2012, 12:32 pm

recieve sms online :3 Is this just me or am I the only one who can't enter a mobile number

emra - July 19, 2012, 12:34 pm

I know. But this is tutorial for dum facebook users

VvGHOSTvV - July 19, 2012, 12:57 pm

It is a good manipulative trick... if they are 13

An easier trick: hey slave can I have your password.

But no, this may hit kids and possibly not adults.

deSepticon - September 23, 2012, 8:51 am

Victim must be damn naive to fall on this way :)

tantenoa1 - September 23, 2012, 12:29 pm

haha oh my god ;)

cant use it with normal ppl ;) just for real idiots

Nitrate - September 23, 2012, 1:31 pm

Good Social Engineering
people are smart these dayz.

trinity76 - April 21, 2014, 1:34 pm

thank you for this tutorial, I'll try after

Right. Would you do a thing like that :P

Enclin3d123 - April 27, 2014, 1:47 pm

Pretty shitty tutorial to be honest, and I dont think that a "slave" would be this mentally retarded to change his/hers phone number.

jayvee - May 4, 2014, 1:17 am

Nice but i dont think that a slave is that retard ^^

puffchef - May 4, 2014, 5:33 am

Lol nearly nobody would add the phone number lolz

MR. BOYKA - May 4, 2014, 11:45 am

is dis social engineering trick??????

yours type of damn kid suggest that fucking idea.....

syafiqamie - February 1, 2015, 2:08 am

Only to stupid slave u can do this trick, probably someone under 12 with mental retarded born.
