Thread: [Delinquent Responsibility Rec](#)

Senior Sherlock - July 19, 2012, 3:48 pm

Hey guys I have been reading a few delinquent manga and watched a few anime. I was wondering is anybody could recommend anime/manga where a delinquent is given responsibility. One example could be simply Beelzebub and how Oga has raise the demon baby (however I would prefer a more serious manga/anime).

Thanks for any recs ahead of time AA! :)

Well, there are a lot where a kid is given responsibility of a sibling like Yosuga no Sora.
BTW... Recommendation threads arent allowed in AA anymore...

School rumble might float your boat. Should give it a try, pretty long series though.

I thought recommendation threads were required to have a list to the anime you've watched and preferences of genre? At least that's what I can recall Tasemu making a thread about.
