Thread: [Registry Cleaner That Removes Software Installation Information](#)

rONniE - November 21, 2007, 9:55 am

Hi Guys...

am looking for any particular software or most likely a Registry Cleaner that can remove information about trial versions of softwares that were previously installed. There's this software that I haven't really had enough time to try out....thinking of trying it out some more before I make a move towards buying it....

cheers
