Thread: [uJDB Announcement : We will be changing our packages on \[7-28-12\]](#)

??s?? - July 24, 2012, 4:21 pm

Hello uJDB members, this is just an announcement that uJDB is changing our packages from Lifetime only for \$20 to the Infection Package!

This is going to give you the ability to Pay Per Infection. Our packages will contain 10 installs, 100 installs, 1000 installs, and good old lifetime. These packages will range from \$1 - \$45, so we can offer very various payment packages for all types of budgets!

Here is an update on how the thread will look like on the 28th of this month.

Click Here To See New Thread ([Click to View](#))

Since this offer is valid AFTER our \$10 Lifetime deal, you can still grab a lifetime for only \$10!

I purchased lifetime at the price of \$20. It's a fantastic product and I'd encourage everybody to grab it while it's extremely cheap. It's worth all the money that he's charging for it. The simple design allows for a very easy, hassle-free way to setup a JDB.

Amsel - July 25, 2012, 5:46 pm

So if I already have lifetime, will I get this new lifetime package? Also, vouch this is an epic product, and will be worth 45\$ once the price changes.
