Thread: [Extremly Easy Fast Graphics Request :\)](#)

Diamond ? - July 25, 2012, 8:20 pm

Hey guys, I'm making a signature for Edison, and it's too big :/
It's a GIF. Can someone resize it under 200x650?
Thanks!

Download link: <https://dl.dropbox.com/u/94032144/Signature-4-Edison.gif>

I can also supply the CS5 project file.

(Sorry about dropbox link, Imgur won't let me upload it...)

Sure i will bro. I will tell you and post it when im done.

Wait, do you mean the other way around you sais 200x650

LULZxSpLaPH - July 25, 2012, 8:28 pm

Lmao, do not do this again this is graphics requests not graphics i made please resize it..

I need it the exact same, but smaller. preferably the size under 200x650 (But not exactly 200x650 that would stretch it)

What he means is that HF's signature size goes:

"Signature images can be no larger than 650x200 pixels and 500k size. Animated gifs should not be annoying."

So you might need to remake it completely.
Hope it works well for you.

Thanks a lot bro :)

Looks really nice!
