Thread: [\[FREE CRYPTING\] Crypting your server for free \[FREE CRYPTING\]](#)

The Don Corleone - July 26, 2012, 12:23 pm

Hello HF,

I'm crypting servers for free, it's 2/36 so that's pretty good for a free crypting service. If you want me to crypt your server post here the download link and I'll PM you the FUD crypted RAT.

Regards.

If it's 2/36 then it's not FUD. Just saying.

Grieve Crypter and I have a lot of slaves on my DarkComet RAT so it is fine for me.

Just doing to help the starters out :)
