What is file pumper?

Kamel3n - February 15, 2010, 8:52 am

It pump your files, often to an unsuspicious amount so av's can't detect the server as a virus.

Zlasarma - February 15, 2010, 9:01 am

Nice job mate! :)

Keep it on :)

Siro007 - February 15, 2010, 10:08 am

whats the interval to this program?

NER? - February 16, 2010, 7:49 pm

why is there virus in it? I'm sure its not dangerous if you actually posted it though probably because it records keystrokes. I'm pretty new @ this

TheHackTime - February 16, 2010, 9:31 pm

Thank you for the share.

Keep the good work ?

Kamel3n - February 16, 2010, 10:17 pm

it record keystrokes but it is not FUD (fully undetectable) so thats why 2 AV's catches it,
