VOUCHES! (Sep 1, 2012 03:22 AM)Travier Wrote: [\[CITE\]](#) I bought the E-Book, and here's my 100% HONEST review:

The method is unique and I haven't seen it before. Really, it is a nice one.
It's not one of these shitty E-Books which rely on YouTube and on fake generators, or that kind of bull****.

However, if you want to make money with this, you should work at the beginning.
There is work involved, and you must do it in order to start earning.

But! After that, you can get your money on Autopilot. After everything is set-up, it pays in the long run.

I'll be honest and say: Don't expect to make \$100 on your first day, but after a few days of work you'll earn at-least \$30+ a day. You can also earn \$80 a day if you work well enough!

So, if you have determination and will power to make money with PPD/CPA, this E-Book is FOR YOU! :)

And never forget, laziness will get you nowhere!

Good luck with sales op:) (May 3, 2012 07:16 PM)TheBlackHat Wrote: [\[CITE\]](#) I received a vouch copy as well and would like to put in a few words.

This method requires a bit of work for it to be successful, but it will also keep you traffic for a long time. What I mean by that is, visitors will come back to your site frequently resulting in you making more money. I started reading the method and I figured this could work pretty easily, as a lot of CPA lead methods can be a bit sketchy. I haven't seen this idea in that many e-books as in many, so it has some originality to it as well. I think the author has made a pretty good amount in a short duration of time. Also, saturation is not really an issue here, as you can always figure out an alternate route to get your traffic. Out of a grand score of 10, I would give this ebook an 8.5 out of 10 points. Good work 16inch. This e-book is pretty user friendly, could have a bit more detail in it but nothing someone can't figure out! (May 3, 2012 10:25 PM).dB Wrote: [\[CITE\]](#) I vouch for 16inch! GLWS mate! (May 5, 2012 01:46 AM)Hollow™ Wrote: [\[CITE\]](#) I received a vouch copy and here's my unofficial review, please note this is only in my own opinion;

When I first started reading the method, I was thinking about another one of those shitty eBooks where you rely on youtube, twitter, and other social websites, but as I continued to read, I was shocked. I first would like to apologize to the 16inch, the author of this eBook for thinking that this eBook would be similar to other eBooks that are really stupid and common sense. 16inch comes up with an idea that really leads towards to the point of being rich. The only thing that bothers me about this eBook is that you need investments every time you execute the method, every time you invest, you make around \$5 or more but it is well worth it. I am really glad that I received this eBook as I will be making great amount of money with it. Last piece of note, this is a must buy, as I'm 100% sure you will fill up your bank in matters of time.

If you decide to buy this and work hard every day you could be like some of the people who make 10,000 per month just alone with CPA and other company's, If you are an CPA expert you will not really need this method because you probably have a similar method already out and making money with it.

First off, grammar is good and understandable, just did a quick skim over.

Would not hurt to add a little bit more Info on what this Involves In the OP, but I see potential thus far, and have pretty much every Automation marketing software out there to put It to full use and maximize all earnings.

Will be testing this all this week and give a full review on earnings, etc, once I'm finished.

No, I give you a great niche and from that I tell you what to do with it. It has nothing to do with YouTube and is not like all the other ebooks you may have seen. This is probably a unique ebook to you.

I have replied to both of you via private message.

Online and still for sale.

Would you describe this as whitehat, blackhat, or greyhat?

If it's not whitehat, how likely is this to get you banned?

This is a method which is 100% white hart. However, if you decide to purchase I can show you how to have it grey hat and make more money.

Also, I have sent everyone a message in regards to their questions.

Same question. Selling this to many people? Is there a chance that this method can be saturated?

Does this require you to come up with your own niche of download communities? I have seen a few PPD ebooks and they basically just tell you to start a fileice account, upload yt videos with links in the description, post on forums, and pump your videos with views. They might give you a few file ideas but usually those are saturated.

I bought the E-Book, and here's my 100% HONEST review:

The method is unique and I haven't seen it before. Really, it is a nice one.
It's not one of these shitty E-Books which rely on YouTube and on fake generators, or that kind of bull****.

However, if you want to make money with this, you should work at the beginning.
There is work involved, and you must do it in order to start earning.

But! After that, you can get your money on Autopilot. After everything is set-up, it pays in the long run.

I'll be honest and say: Don't expect to make \$100 on your first day, but after a few days of work you'll earn at-least \$30+ a day. You can also earn \$80 a day if you work well enough!

So, if you have determination and will power to make money with PPD/CPA, this E-Book is FOR YOU! :)

And never forget, laziness will get you nowhere!

Hey.

I have been considering purchasing your eBook.

Unfortunately, I have purchased too many eBooks in the past, that, simply, tell me stuff I already know/worthless information.

Most eBooks that people buy contain information that they could have thought of, on their own.

So I have a few questions about the eBook.

-Does it actually have worthwhile information?

-What kind of set-up is required?

-When will I start earning if I use it?

-Will I need investment to start earning?

I'm really considering purchasing this eBook,
but I need to know if it actually is worth it.

Thanks.

Hello. Thanks for your consideration. These are my answers.

Yes, I have released three updates throughout the course of selling this method.

The set up should take you about thirty minutes to complete.

You can earn money today if you finish the setting up.

You do not need any investment to begin earning. However, you should have around \$2 at the end of the month.

Regards,
Ya Habibi.

I've just finished reading this (and the update).

I can say that i have never heard of this method, it's 100% original (considering my few experience).

I think that to use this well we all need only of experience. The method is easy, but it won't give you hundreds per week with only the following of steps. You need experience trying, even failing sometime, because this way allows all us to learn (and then, earn).

I'm starting right today. I think that before I start, before I learn. Before I learn, before I earn.

A little review:

This ebook explain in detail how to earn a lot of \$\$\$\$ using social networks.

Stop wasting your time and moneys on "earn 500\$ per minute" ebooks because this is the perfect ebook for a begginer.

The moneys will roll and roll into your account in 1-2 days after setting all up.
Good spelling without grammar errors.
My rating for this ebook:8/10

This doesn't involve hosting pirated/stolen items on PPD software does it, because lately actual law suits and fines have been being sent to people doing that.

Thank you :)

Sure.

1. Yes, this is worldwide.
2. You can, but you need to check with your PPD Network (ie - File Flare/ File Ice).
3. Yes, you can.
4. Yes, but for higher conversions, a content locker is needed. You can do without it, though.

Thanks for the quick reply. For some unknown reason e-junkie is not accepting my unverified paypal payments. Can I pay with a \$10 ultimate game card code?

Also just a few more questions -

1. Which PPD do you suggest to earn for this? Do they pay through unverified paypal?
2. Do I need to create thousands of YT video and promote them? I mean does this method involves extreme promotion work?
3. How much can I earn the fast day if I spent an hour>

 1. I use File Ice, however, you can choose other ones if you cannot get accepted into it, like File Flare.
 2. YouTube is not mentioned in this eBook, nor does it involve any videos.

3. You only need 30 minutes to set it up, then you can earn more than \$100 in that day if you try really hard.

I will send you a private message with other payment options.

Dimenlade, you can earn a lot on your first day, depending on if you set it up right and follow the instructions well. I can't put a figure on it, but it can be tons.

Sasuke, no Omegle is need nor used. There is a little but of promotion work, but I tell you where to go and what to do. It doesn't use YouTube.

Sasuke, you need a little bit of time at the start to set it up, then you check your PPD account to see how much you made that day afterwards. You set it up every week or month - your choice.

Nodogg, I can access HF maybe once a day until I come back. Let me send you the information.
