Thread: [\[TRP\] Giving away RS related youtube channel with 10,1k subs!](#)

Badass - July 29, 2012, 12:08 pm

The winner is big sean! He has been pmed. Gratz!

<http://www.youtube.com/irepwildy>

As you clearly see they are fake subs. But it's great channel to infect people. As I don't rat anymore, I decided to give it away ^^

Post a random number (1-40) and the wait. Winner will be chosen with www.random.org .

WARNING!

If you post duplicate number, I will not let you enter at all! I take effort to update main post with numbers, yet no1 reads them? Please, I am giving away free stuff, respect me by doing that small job to check if your number is already took. Thank you.

Numbers took! (Read before posting! Please!)

Well, I am sorry about that, I misread, I thought that the "only numbers" were "non-used numbers".
Haha, seems like I make some reading mistakes while tired, I am so sorry about that!

Yeah, don't worry. But copy pasting 40 people, then typing their numbers 2 times in right order is quite nasty. Next giveaway will be something OG lol.

Mby I could try to code automated giveaway website? xD That would add people instantly, and then choose the winner. Yeah, might do that in the future.

I'll take #23 please. Thank You for the giveaway, I looked through to see if 23 was taken I'm not sure what this user said though. He never said can I have #23 so I guess it was still up for grabs since his grammar wasn't formatted correctly.
