Hello OP, got a few questions.

1. For downloads, users will just download a file, but it's not a guarantee that they will run it correct?
2. What is the run-ratio for downloads
3. when buying installs, is this basically a botshop where installs are shared and eventually you get botkilled or are there fresh loads that only you have.

thanks

Dark_Sniper - August 15, 2012, 4:27 pm

I will be charging back in the next few days if you don't contact me.

Just noticed your name changed form Lockandload to Whiskey... and you're banned now...
hmmm...

I'm going to charge back because the service was never confirmed to be delivered to me nor did I see anything come my way.

If you ever get unbanned you can contact me and we can work something out.

I'd wait another day and try to contact him and if he doesn't respond just file the claim then. I'm going to do the same.
