Thread: [?How To E-Whore For Money?Long Tutorial?Great Tutorial?](#)

Z0Ra - July 31, 2012, 11:28 am

Let's start off this whole thing by saying it takes a while before you start actually making decent money, it takes a lot of patience! So be ready for it.

What is E-Whore'ing

E-Whore'ing is using Human manipulation to ensue money from a person intern of some kind of sexually pleasuring act. Even though you are not the real person committing these acts.

How is this done?

This is done by making that person you meet think you are a beautiful girl. That you are looking for money and need some help paying something. So he feels sorry enough that he pays you to sexually pleasure him over the internet. It maybe simple as just a video, or as bad as wanting you to stick your fingers up your dogs butt. (This actually happened to me on Skype)

THINGS TO REMEMBER WHILE E-WHORING

Spoiler ([Click to View](#))

1.) Always!! Always use a VPN or a Proxie server here is a great one that keeps logs but is still very good:<http://cyberghostvpn.com/en/product/download.html>

2.) Never come out of character! Once you get your money and you want to leave never say "You just fucked over this is a dude bitch!" or something of that matter. Because there are some smart people out there and they could possibly find you even though you used a VPN it is still possible but I don't think someone would spend that much time on \$30.

3.) Never get too greedy! Like yesterday a guy offered me \$10 minutes for a \$10 minute show, I declined and wanted more I said "\$20 for 10 mins" he left the Skype call and blocked me. The worse thing was that I was live streaming to HF and people started going nuts! Just remember don't ever get too greedy.

4.) STICK TO YOUR WHORES PERSONA!! Never use two different personas, use one make a folder keep all your ewhoring stuff in there and make a .txt file with fake facts about your whore. Here are a few examples,

Name: Leshae Render

Age: 17 (make sure to be under 18 so you can use Black Mail)

Birth Year: 1995

Birth Date: January 29, 1995

Living place: Columbus, Ohio

Who do you live with: Dad

Bio: I am doing cam showws to get some exxxtra money. Add me on Skype (Skype name here)

Once people start catching on move to another chat room or change your persona.

5.) You are supposed to be a girl so act like one!!!! Use an exaggeration of smiley faces and frownny faces. let the guy know how you feel by kind of beating around the bush, except for the money part. Let him give you an offer first then see what you can do with it. Here is an example of a convo.

Me: 17/F/Norway Looking to some camm showws for some exxxtra money :)))

Partner: How much?

Me: How much are youu willing to givve?? :)))

Partner: \$30 for 20 mins?

Me: Deffff I am getting sett upp right now,,,, :) just sne d the money through Amzon to this email blah blah blah

Partner: Let's start :P

There is just a quick example this a real convo I had but shortened for times sake.

Different Techniques

There multiple completely different techniques! I will name out 4 different techniques and go into detail on them here:

Craigslist

Spoiler ([Click to View](#))

I have alwways hated the Craiglist technique. It is shitty but people do it and some do it good. So here we go

Materials needed:

- 1.) Craigslist Account- using Whores information -
- 2.) Fake Skype - Whores Information -
- 3.) Fake email you can receive emails at.
- 4.) Patience.

Step 1.) Go onto Craigslist and start an add in the Females looking for men section saying

something close to this: "17/F/(Place you are posting from MAKE SURE THIS PLACE IS AS FAR AWAY FROM YOU AS POSSIBLE!)

looking to do some cammmmm showws for some exxxtra money!

Step 2.) People will email you out the ass so get ready. Reply fast as possible and get them to add you on Skype. Talk to them and SE them (Social Engineer.)

Step 3.) Get them to send the money first. Maybe entice them with a few pictures maybe a half nude or so. Get them wanting more.

Step 4.) Since you can't actually do a cam show for him you have to leave. Make sure you lock him and delete your post on Craigs List as fast as possible becuase he most likely complain to CL and get your account ghosted.

VCW's

Spoiler ([Click to View](#))

VCW's is the way I usually make my money. VCW stand for Virtual Cam Whore. VCW's is originally a video that a girl made during a chat with someone. Someone recorded and split up into different action the girl was doing. Made buttons and made into a file that can be read by adobe Flash Player.

Materials Needed:

- 1.) Fake Skype (Use the one from before)
- 2.) A Ehare persona we talked about this earlier.
- 3.) ManyCam <http://download.manycam.com/>
- 4.) Adobe Flash Player 10 <http://ge.tt/api/1/files/5K1jt8L/0/blob?download>
- 4.) Patience

How To Setup A VCW

Step 1:

Download a VCW. Many free VCWs can be found on Hack Forums.

Step 4:

Once you have downloaded a VCW and extracted it from the .rar double click on the .swf file and this window should popup. It will vary depending on which VCW you're using.

Step 5:

Open up ManyCam and navigate over to the "Text Over Video" button in the "Effects" tab and remove the ManyCam watermark.

Once that's done hit "Sources" and go down to "Desktop" now click on "Custom desktop" and you should get a grey box that you can expand r contrast. Place the grey area over the video portion of the VCW that's open in Flash Player.

Step 6:

Now ManyCam should like like this: [Many Cam Picture](#)

Remember that Flash Player should be the top window in order for ManyCam to see it properly. A good way of doing this is using Desktops

I suggest moving the "Update rate" further to the left as it speeds it up. at about 25 works good for me

Step 7:

Go on TinyChat or Skype or Omegle and choose ManyCam Virtual Webcam. Have fun making money off pervs!

How to actually get money out of people while using a VCW

Spoiler ([Click to View](#))

People will pay you need to just find the right ones. No one wants to get scammed so you have to seem believable. Use a VCW with multiple different options on it such as, Blow A Kiss, or Stick 1 finger up, or wave. People have been scammed before or just plain fooled by a fake video. So make sure if they say I don't know if you re real, "Tell me to do something." If your VCW doesn't have this feature just leave the chat and block the person!

When someone wants a show flash them to get them enticed. Make sure they pay, once they do if your VCW does have a little dance or show PLAY IT!! If you just leave it makes people feel uncomfortable about another video he sees down the road. If you just leave you are ruining it for the rest of us. That guy will probably be more cautious next time another E-Whore comes along. So just play the video and say you have to leave before it ends.

How Not To Get Caught

Spoiler ([Click to View](#))

A lot of people where asking for this!

To not get caught you must use a VPN or a proxie sock!!!! The people usually won't want to track someone down for some money. Also, NEVER EVER..EVER..EVER.. give out real personal information! Never.

Recap

Make sure to always keep a VPN on! With everything you do!

Make sure to always stay in character, never leave even once you have scammed him.

No one wants to be scammed so seem believable

You are playing as a girl so act like one, use smiley faces and frowwny faces when talking to give the guy a hint you are feeling uncomfortable

Play him a short show. Don't ruin it for the rest of us.

E-Whore'ing is illegal. Human Manipulation for monetary gain. Rememeber use a VPN!

skynet2 - January 12, 2013, 9:28 pm

Great tutorial! Thanks a lot for the post. In the past I have e-whored for extra money. I'm in college and an extra \$100 really helps out each week.

What is your most used method to receive your money from while ewhoring? Paypal? MoneyPak? In the past when I have ewhored, a contact of mine would set up a fake profile and redirect all the traffic to my messenger. I would ewhore for about 4 hours a day and at the end of the week my contact would send me my cut of the profits via Paypal.

I never actually did any of the profile creating and I never used a cam. It was all chat and pictures. We had several "girls" we would use which had tons of pics for each girl. I'm wanting to get back into the game though. My contact I worked for has recently gone onto bigger and better things. If any one thinks they could use my services, I'd be more than happy to chat and work something out. I'm available on the weekends and most weekday nights. PM me if you'd like.

dfiles - November 21, 2013, 10:53 pm

Great tutorial, I'm trying to learn as much as i can before trying this out.

One part about ewhoring I still don't understand is what is the point of hiding your ip with a vpn/socks5 if we have to use a paypal account to receive the money?

I dont have experience with ewhoring but i know paypal has a tendency to occasionally limit or close accounts. Isn't there a large risk the person you are ewhoring would get ticked off and report you to paypal making you lose all your earnings, or even make paypal give them or the authorities your info? When you send money to paypal it tells the sender your real name unless u have a business acc, and they would see you have a boy's name.

I've got a problem...

after installing Flashplayer 10 i can't open the "EasyVCW" file...
flashplayer just disappears after opening the vcw file.

Hope that anyone can help me.

XXX.97 - December 20, 2013, 10:29 am

No, don't pose as 17...ever. If you get caught you're still getting charged with child porn just because you POSED as a minor. E-Whoring isn't worth becoming a sex offender.

(Jan 12, 2013 10:28 PM)skynet2 Wrote: [\[CITE\]](#) Great tutorial! Thanks a lot for the post. In the past I have e-whored for extra money. I'm in college and an extra \$100 really helps out each week.

What is your most used method to receive your money from while ewhoring? Paypal? MoneyPak? In the past when I have ewhored, a contact of mine would set up a fake profile and redirect all the traffic to my messenger. I would ewhore for about 4 hours a day and at the end of the week my contact would send me my cut of the profits via Paypal.

I never actually did any of the profile creating and I never used a cam. It was all chat and pictures. We had several "girls" we would use which had tons of pics for each girl. I'm wanting to get back into the game though. My contact I worked for has recently gone onto bigger and better things. If any one thinks they could use my services, I'd be more than happy to chat and work something out. I'm available on the weekends and most weekday nights. PM me if you'd like.

I would love to hok up with u on this alass I am but a lonly noob. if wou ld bechace hit me up ...

ohh adamim Turk :D FB For the win. Never thought there was a turkish dude on this site. Glad to meet you bro. Also nice tut.

MRFRENCH - September 22, 2014, 3:26 pm

Great tutorial, especially for a newbie such as myself. I'm curious though. Its easy to believe (and definitely a safe statement) that its impossible to be fully anonymous on the internet.

But through what method would someone be able to attain your personal information ie. IP address while you are using a VPN? Considering also that no local applications are connecting to the web outside of the VPN?

EDIT: If any methods are brought up, what do you believe the percentage of individuals roaming the chat sites have this knowledge? Purely a guesstimation from past experience please

Thanks in advance,

Zinx - September 28, 2014, 6:35 am

There are great old threads to read and get info from, but posting meaningless comments on it just adds to the chaos of actual current topics and discussions. My .2 is all. No anger or anything for you guys, just think as a section we should stop doing this lol.
