Thread: [\[crypt\] Can someone crypt mine Blackshade Stealth to FUD? \[FUD\]](#)

douloveme - August 1, 2012, 7:23 pm

Hi HF members,

Can someone crypt mine Blackshade Stealth to FUD? Without making the file corrupt? I would really appreciate it and vouch. Greetings
please I really need it I can pay RSGP?

Chemically Advanced - August 9, 2012, 6:28 pm

I could FUD your server for some RS gold.
Pm me.

stonerkraze - August 9, 2012, 6:35 pm

People are really paying 40 dollars for a .net downloaded that isn't even FUD? smh blackshades is making a killing off this place.

yourskype ty:)

If someone would do it it's a risk for him. You are able to scan it on VirusTotal and that is not allowed to do.

You have free crypters to crypt UD. Premium Crypters usually FUD.

Eru Chitanda - August 27, 2015, 7:36 pm

Add me in skype kappa.kappa30 and maybe i can help you

This thread is 3 years old
???

bonjours_bonjours2015 - August 31, 2015, 9:35 am

buy abyss protector. it's great for crypt

FastCrypt - August 31, 2015, 12:51 pm

Or he could simply use my free crypter and get fud rate.
Check my thread.
