Thread: [another good hacking and spamming tools](#)

bassboy - November 24, 2007, 6:55 pm

this might be helpful <http://blackhatbots.blogspot.com> .I tried buying their software,Works very well:D

L33tLXS - November 27, 2007, 1:47 am

ive used alot of programs from aimstuff.net, preferably the aim subterfuge by seven

here are a list of names you can mess with, some even hve phone numbers.
gotem off diablo, all these were keylogged, included pw too, but you can get them easy. some of them might hae changed their password. from those leech screennames you can get more n more passwords.

nobody can tack my ass, im too smooth

Kuroda_Shun - November 27, 2007, 5:34 am

Check it out. Mr SMooth wants us to stick a tack on his ass.

A7laco - February 25, 2015, 3:54 pm

The link is not working, where can i buy more of those tools ?

MrToyEater - February 25, 2015, 4:25 pm

(Feb 25, 2015 04:54 PM)A7laco Wrote: [\[CITE\]](#) The link is not working, where can i buy more of those tools ?Why did you grave dig a post that was created 8 YEARS AGO?! If you actually looked at the date you would understand why the link was down. ?
