Thread: [HF always down](#)

spittta - August 5, 2012, 12:54 pm

How come HF always either has: MyBB errors, cloudflare and all that bullshit? This sites always down whenever I try getting on.

Canon - August 5, 2012, 12:55 pm

Hasn't been down for me at all today mate.

| ZooT | - August 5, 2012, 12:58 pm

I think HF runs at about 98% uptime. Not bad for this kind of site in my opinion.

Hexicidal - August 5, 2012, 12:59 pm

It has a 97%-99% uptime man.

Omni does what he can. Relax and enjoy it.

TechApp - August 5, 2012, 1:00 pm

It was down for about a a minute earlier today. IsItDown.us even said it was when I checked.

Odin the Wanderer - August 5, 2012, 1:01 pm

It has an amazing % uptime for this type of site.

Vexna - August 5, 2012, 1:01 pm

(Aug 5, 2012 01:00 PM)TechApp Wrote: [\[CITE\]](#) It was down for about a a minute earlier today. IsItDown.us even said it was when I checked.This. It is rare when HackForums is down for more than 1 hour and when it happens, it is because HackForums is attacked.

Cubs - August 5, 2012, 1:01 pm

It really isn't that bad, I only get that once in a while though.

Apathy - August 5, 2012, 1:04 pm

No reason for this thread.

Hackforums has downtime. Being a "hacking" site, it is a target for DDOS.

This site is usually up. I noticed the downtime today too. It was only 6 minutes at the most though altogether.
