Thread: [Would you buy this? Unsaturated method to make \\$50-\\$70 a week for \\$50](#)

Zeon - August 9, 2012, 4:03 am

I've seen ebooks that promise \$1000 a month get sold for \$5- they simply DON'T work. However, what I'm promising is a method that is guaranteed to make you back your money in a week. It can then be repeated as many times as you want.

Why am I selling this if I'm making so much money with it?

Simple. I can make \$50 without wasting a week's time by selling the ebook. This method cannot become saturated, so this isn't a problem.

This method will not include:

CPA/PPV/PTC/GPA/Adsense/PPD/Affiliate marketing or any other method seen on HF before. It is also completely white hat. Oh and I'm looking for someone that can make a fancy ebook layout and thread layout too, they'll be paid around \$20.

Im not exactly great with graphics, but i could help make it more presentable.

Zeon - August 9, 2012, 4:17 am

Well since I'm paying \$20 it has to look pretty good.

Alhalama - August 9, 2012, 4:19 am

Show some proof first that you make \$35 - \$50 a week....

Zeon - August 9, 2012, 4:22 am

Uhh... I've got a master donator award? What else do you want me to show, I can give you a photo of me holding 1000 pounds, or a PayPal screenshot, or my online bank account screenshot...

Just because you have a master donator award doesn't mean you paid for it through your "method"...

The French - August 9, 2012, 4:25 am

Already spent your 6000\$ blackshades pay? You're trying way too hard to make a few bucks

Ok nvm, talking with such a retard like you is pointless.

Wow you have a master donator award, that means you must be making millions dude.

I will be the first to sales bash your thread when you open it, whoever buys from such a retard like you must be, well, retarded?

Zeon - August 9, 2012, 4:38 am

Oh I don't see how I'm being retarded, you asked for payment proof and I'm asking you what payment proof you need.

I asked you for a payment proof and you told me, "uhh I have a master donator award, that's proof enough of how much money I make"

....

Zeon - August 9, 2012, 4:46 am

No, I've made it through other ways too. It's funny how you guys will trust someone's photoshopped PayPal receipts when buying that \$3000 a month ebook for \$5, and yet I'm giving you 3 or 4 different methods for proving it and you guys are like "eeeh woah"?

I have never purchased a single e-book on this website.

So your argument is beyond invalid.

Natas - August 9, 2012, 4:49 am

Mabey 50\$ is a lot for one method tho I would mabey pay 25\$

Spoiler [\(Click to View\)](#) If I had the 25\$

Zeon - August 9, 2012, 4:52 am

Hmm I might consider lowering the price if not enough people will buy, although I think it's worth it.

What i gather from this thread is that this is a bullshit ebook for a quick 50\$

Zeon - August 9, 2012, 5:00 am

If the HF audience is simply not mature for this book then I won't sell it. Keep buying those \$3000 a day for \$5 ebooks people :)

I would rather waste \$5 on a shitty e-book, than \$50 on a shitty e-book.

Proves absolutely nothing, AT ALL.

You could of got \$500 for your birthday from your mom and donated to HF for all we know.

That's no proof..

i would buy it but not for 50 huh,, seems to high maybe for around 15 \$:))

TeLneT_ - August 9, 2012, 5:27 am

Vouch for buddy , and good luck with sales.

Scooby Doo. - August 9, 2012, 5:38 am

Don't make the thread...

You're not earning 50 dollars a week, and you're not fooling anyone. Every day there's an idiot trying to get "clever" creating these threads right before he tries to sell his ebook that only his friends find working.

Hopsin - August 9, 2012, 5:45 am

I wouldn't buy this,if you making so much no need to sell it. Keep the profit for yourself.

As for master donator,means nothing at all.

Also,there are TONS of people who do the same thing like you,sell for like 40-75 \$ with "Proof" and none of them actually work.

I don't think people will trust you or whatsoever. It's not you,it's the market and the people itself who dislike this kinds of material.

You may be legit and so on but its risky unless there is an refund guarantuee + bonus money for spending our time.

Or

You might be not legit at all and is still risky.

Price is high as well.

You know that there 2-3 people who had master donator and scammed A LOT of people with their lies? Don't become one of them,seriously.

This is my opinion like it or not,its the truth. For me at least.

Joshh - August 9, 2012, 5:50 am

Does it require being fired from blackshades for being incompetent?

Zeon - August 9, 2012, 5:58 am

Well ok, keep on buying your \$5 ebooks and getting scammed people :) You kids are obviously not mature enough for this kind of material. NO ONE is going to sell you an method that makes them \$5k a month for \$5. But since you guys are fooled by shiny thread layouts, keep on buying that shit. Anyone that wants to start making real money can PM me.
