As far as I know this deal is only for the US but all you need is a email that has never been used with SiriusXM.

Once you're signed up you will probably ONLY have access to the player. So login here:

Nice because the NFL preseason starts today and if you dont have tv you can hear all the live action on the radio. :) Thanks

Thanks. Just signed up and got my email within 5 minutes. My subscription in my car just ended so its nice to be able to listen to satellite radio again.
