(Aug 9, 2012 05:34 PM)Cunning Wrote: [\[CITE\]](#) I think that this is one of the best Virtual Private Networks I have ever encountered on hackforums.

No logs will be kept so its good for blackhat activity (I don't endorse this) and it uses US ip addresses. It provides support and it there is no expiration. This is a great VPN, it is well-advertised, everywhere I go I run into the sexy looking signature, advertising this VPN. The owner of this VPN is a very legit seller and I strongly suggest that everyone buys this VPN. Vouch!

Good luck with sales!

Sincerely, Cunning.
