Thread: [Looking for people who live in the UK/Canada/Australia.](#)

xyfir - August 10, 2012, 6:57 pm

Basically I have a method that's proven to work. Used it numerous times over the course of the past few months. Problem is, it no longer works in the US. So, I'm looking for people who live in the UK or Canada. You don't need any special skills. Just maybe an hour or two of free time whenever you want to make money. This method can bring thousands of dollars every time it's used. I won't go into full detail on here, only the people I choose to help. We'll split the profits 50/50.

You cannot live in the US and just say that you don't. It simply won't work. No nothing will be sent to your house. No I won't need your address. I just need people who want to make money and live in the UK/Canada.

Please do not waste my time and I won't waste yours. I'm taking more than one person so don't be afraid to ask.

If you're interested in this please read my last post on page three. Do NOT PM me.

Thank you for your time ?

You need to physically be living in those countries. I wish a VPN worked.
