Thread: [Advertising your Product](#)

webdev77 - August 11, 2012, 2:27 pm

I will give you my sig space and promote your product around HF to anyone who is looking for your crypter/booter/other product. I have ~5.75 posts per day and some experience in promotion/advertising.

Please leave your offers here.

I accept LR only unless you are going to make a really good offer with PP.

qpdosJ - September 9, 2012, 11:18 am

~5.75 posts per day is not really that impressive for a person who is supposed to advertise. I am not flaming, just saying. :)

This thread is old now, and this is coming from a person with 65 posts. I don't go around spamming, so it's quite a reasonable number.

What do you feel your signature space is worth?

I would be interested for my backlink service, which has a thread here;
