Thread: [Up and Coming PPI Program - Burgerking PPI](#)

Burgerking ppi - August 12, 2012, 2:22 am

I am here to announce the Pre-Release of Burgerking PPI, because our burgers pay.

We take all countries and will always provide a FUD exe and prices that beat the competition. We pay out twice a month through Liberty Reserve and WMZ with a minimum payout of \$10.

Prices:

USA: \$250/k

AU,GB,CA,DE: \$150/k

EU Countries: \$80/k

Other Countries: \$30/k

Will update this thread once we are ready with contact details.

Prince of Persia - August 12, 2012, 2:33 am

So you registered just to say this? Seems like a scam to me.

I can assure you its not.

If we don't spread the word how do we expect to gain customers.

redpois0n - August 12, 2012, 2:45 am

I dont get anything about this. Sorry. People have hard time buying from people like you that just joined

i don't usually come on Hack Forums, but i want to spread the word.

There aren't many PPI's on here i believe.

All I'm getting from this thread is that you're selling Payment Protection Insurance o.0

PPI - Pay Per Install.

You install our software onto your bots and get paid for it.

We also pay more than the average PPI and you will make more with us than selling your bots to people.
