Thread: [I can't make a thread at the "Monetizing Techniques" section](#)

Draxho - August 13, 2012, 1:08 pm

Hi, as you can read in the thread subject, I can't make a thread at the "Monetizing Techniques" which is pretty annoying because I can only reply to existing threads and I can't make a thread about a specified subject where I would like to have more information of..

It might be that I got banned for some reason because when I first opened my account I saw this website more as a promotional tool then a helpful source of information. If I got banned is there anyway that I can get unbanned?

Thanks in advance/

PS: My account is activated/

Some forums you need to be upgraded to post in.

Please consider purchasing l33t at this link: <https://hackforums.net/upgrade.php>

You have to purchase L33t in order to post in that section.

Is this not in the [Help Docs](#) yet? There are too many threads about this.

vlad_yo - August 13, 2012, 1:24 pm

Yes you need to be at least L33T to post in that section, bro

You must be upgraded.

Why can't you learn to read the [Help Docs](#) or use the search button before you make a pointless thread though?

As stated by others, you must be upgraded in order to make a thread in that section.
