Thread: [Member trying to infect others Amata Sørå](#)

Doncaster Rovers - August 15, 2012, 3:55 am

So I added him on skype for a service and I realized I didn't want it. Then today he message me saying he has a method and he wants me to try it so he send it and it was an .scr and I know it was a virus downloaded it and malewarebytes detected it and removed it.

Pictures from skype:
