Thread: [\[COOL!\]VIDEO OF GIRL SAT AT WEBCAM FOR E-WHORING!\[COOL!\]](#)

pROPER - February 19, 2010, 5:52 am

Hey guys, pROPER here.

I recently found this video of a girl (around 15ish) sat at her webcam. Every now and then she smiles and moves etc... this would be good if you where e-whoring and wanted to prove that you were real to somebody xD. How to play this into your webcam? Download a program such as ManyCam, WebcamMax or FakeWebcam. ManyCam is the only one that has an option to remove the Manycam.com watermark without paying, but FakeWebcam is just so simple, I bought the full version. Anyways guys, have fun with this and earn a lot of money.

Really sorry it's \$harecrap, guys! Just wanted to see if my account worked

That's your opinion and you're entitled to it. I earn a reasonable income from this technique.

I downloaded it and its clean.

But it seems this guy all he wants is to make some money from downloads.

However this video is not suitable for e-whoring

The girl smiles/laughs/Moves too much. Its short, its bad quality. I can see that it was taken from msn.

Overall rate 0.5/5

Its waste of time.

You heard the guy, I like his review. I guess it is a little bad for that, and by the way, plzzz don't re-upload! But thank you anyway for the 3 people who downloaded using \$harecrap... And sorry for that by the way. I have an excellent video of a blonde girl stripping (easily 19 years old) and occasionally looking down to type for you guys, if enough people PM me I will post.

Use webcammax screen capture webcam output, goto myfreecams.com and pick a random whore from that site. Works every time, you don't need to download this shit.

Thanks for your share. Appreciated.

Really, only 3 downloads? Come on guys, this has potential for earning big! Or you can use the method quoted above.

C'mon, no need to flame.

Anyway, thanks for the share. I might download it later tonight!
