Thread: [\[Giveaway\] 2 Free Signatures you can claim / With PSD](#)

Dallas Green - August 20, 2012, 1:46 pm

I'm not sure why. But people often ask me to make a free signature for them. So today I'll share 2 which I found within my folder.

I know they are not defined as good, but I might regularly do something like this until people stop asking me and find one of these threads.

So the first one is a grim kind of atmosphere.

The other one is brighter

PM if you want one or both of the PSDs. If you haven't got Photoshop or any other application to edit a PSD with then Post here. I will put your name or whatever on any of the signatures.

You can claim it as your own creation if you want, I don't care about it.

I don't want them, but they do look really nice! I love the lighting on the second one.

Thank you my friend. If anyone needs any editing on any of them if they haven't got photoshop, e.g reduced lighting/different text position. Just state and i'll do it no problem.

I am amazed with the positive feedback. Thank you.

I have sent to all who have asked so far.
