Thread: [My thread in the suggestions and Ideas just vanished](#)

Byakuya Kuchiki - August 20, 2012, 2:50 pm

I made a suggestion that you should try and reinforce the search bar and the next day I look at my profile the entire thread was not in my profile.

Is this a glitch?

Inso - August 20, 2012, 2:54 pm

Staff member most likely deleted, I don't see why though.

Byakuya Kuchiki - August 20, 2012, 2:55 pm

If Staff deleted it, you will get a message saying the thread locked in you profile.

Inso - August 20, 2012, 2:57 pm

No, you'd see it was locked. You wouldn't see if it was completely deleted. You have more than 20 threads/posts in the junk section (viewing your profile), so it's likely that thread is one of them.

It was probably junked by a staff member

St. Jiberish - August 20, 2012, 3:26 pm

No, it has been deleted because it has been suggested before, maybe you should try searching it. Cough

I did search it and there was no results, so that's why I made that thread.

I would say staff decided to junk the thread bud.

Apathy - August 20, 2012, 3:46 pm

This is just another thread that will be junked or closed. You need to PM staff to find this out.

Maybe because they where all deleted? Maybe...

Staff most likely removed it, the thread must've contained something they didn't like, or something that was asked not to be posted.

Paradoxum - August 20, 2012, 7:40 pm

The thread has been junked.

Please don't.
