Thread: [Steins;Gate - A Masterpiece](#)

Dyme - August 21, 2012, 11:20 am

Last night I finished Steins;Gate and I am literally blown away. This anime is really like nothing I've ever seen before. It was so good I even changed my avatar. ?

Why Steins;Gate is amazing:Interesting Characters

Great animation

A TON of unexpected twists

Many mind boggling concepts

Later on I also found out that most of the content they used in the story are actually from real life! (EX: John Titor, IBM 5100, time travel theories)

Point of this thread: Steins;Gate is amazing, possibly one of my favorite animes to date. Watch it.

Ryan' - August 21, 2012, 11:23 am

It is a great series, and has been my favourite series for a long time now. ^^

Dyme - August 21, 2012, 11:56 am

My favorite part from the anime is when they reveal the true meaning behind El Psy Congroo, I laughed for a while actually xD

VALERO - August 21, 2012, 12:46 pm

i dont like how they sent messages 30 years in the past and the relationships of the characters remain relatively unchanged

Ant Man - August 21, 2012, 12:52 pm

I tried to watch the first episode but I lost track of what in the world was going on.

Ayumu - August 21, 2012, 12:57 pm

Yeah, I loved Steins;Gate. Kurisu x Okarin >w>

GL1TCH3D - August 21, 2012, 1:13 pm

Glad to see you liked it Dyme.

I thought it was a masterpiece as well.

Wojak - August 21, 2012, 2:07 pm

I liked the ending when everything came together :D Kurisu is so hot ?
Did you watch the OVA? It's pretty good

Rippin™ - August 21, 2012, 2:11 pm

Yeah, it is one of the best animes I've seen.

neightworks - August 21, 2012, 2:29 pm

I'm a suuper slow reader and I found it impossible to follow the subs): Read it fine, comprehended it 0.

I now find myself talking like okabe a little.

"I am mad scientist. It's so cool! Sonuvabitch."

???? - August 21, 2012, 3:36 pm

Was a great anime, it's a shame it's hard to find such high quality anime these days.

Adlil - August 21, 2012, 4:20 pm

Now to play the VN, I suppose. Or make interesting "You should be able to solve this" pictures to prove you really do appreciate the show.

Really - August 21, 2012, 8:54 pm

Steins;Gate was amazing, at first I didn't really understand what was going on & I was going to drop it because it was a bit slow for me, but then all of a sudden shit hit the fan & my mind was blown away! The OVA was amazing too seeing how it wasn't one of those typical scenarios where they go to the beach, this one actually related to the main series and answered some questions if you know what I mean ;).

Arruke - August 21, 2012, 9:00 pm

Yeah the whole wrap up OVA was awesome, I kind of wish some other anime did this. Another reason why Steins;Gate is awesome :P

OneandonlySunny™ - August 21, 2012, 9:30 pm

added to my list when it came out
will watch later after finishing hitman reborn! for now :D

Kurisu Makise - August 21, 2012, 9:34 pm

The OST remix of Steins;Gate and Chaos;Head is fucking awesome as well you should check it out. Really liked this anime though as you can see ^^.

Deafboy91 - August 21, 2012, 11:20 pm

Steins;Gate is one of my personal anime favorite list. Great anime.

yozolios - August 22, 2012, 6:16 am

Masterpiece indeed! ?

Love all animes by 5pb Chaos;Head was decent, but i still like steins;gate more~

They are making another one called Robotics;Notes, gonna air in october if i remember correctly..can't wait ?

HellsCrypt - August 23, 2012, 6:35 am

I remember when I first started watching Stines;Gate aka when it aired and I was like wtf am I watching then it progressively got better and better into the masterpiece that it is.

Same thing happened to me.

Spoiler [\(Click to View\)](#)

At first I thought the series was nothing special. Around ep 6 when they started sending D-Mails I was getting really interested. As soon as Mayuri was shot, I was like, "DIS IS AMAZING!".

Zero_Desuyo - August 23, 2012, 4:32 pm

Its really good

Got to play the game though since it has more story

K4M1N4 - August 24, 2012, 11:46 am

Try the visual novel, it is just as great as the anime (even better for some). I recommend it if you think S;G is a masterpiece, it is pretty long and got multiple endings.
