Thread: [Rogue's official programming blog.](#)

Rogue. - August 21, 2012, 4:26 pm

Hola everybody. I have started a blog for programming that will contain many things about all kinds of programming related topics. So far I have made one tutorial. Please check it out coders and regular members too

Also I will be taking requests for tutorials, questions, etc.

Tutorials so far: (VB and C#)

Proxy support

How to load a text file to your programs

I will be posting the source codes of my bots/programs on here as well

Source Code released so far:

Redgage Raper

Clicky.exe

<http://www.itsRogue.blogspot.com>

hazeleekaizera - August 22, 2012, 2:41 pm

i wish you have a tutorial to make a keylogger send to email with picture include :)
hopefully

Dark_Noodles - August 22, 2012, 4:00 pm

Cool blog :P

0xDEAD10CC - August 22, 2012, 10:05 pm

Code Dim sf As New SaveFileDialog

sf.FileName = ""

sf.Filter = "Text Files (*.txt)|*.txt|File (*)|*|All Files (*.*)|*.*)"

sf.Title = "Save"

sf.ShowDialog()

Try

Dim write As New System.IO.StreamWriter(sf.FileName)

Dim i As Integer

For i = 0 To 0

write.WriteLine(listbox.Text())

Next

write.Close()

Catch

End Try

Not the best code... There's lots of things wrong with this. And the C# version is even worse.

infamousnoone - August 22, 2012, 10:10 pm

If you're going to be reading blogs about programming might I suggest something actually worth

while such as the tech-blogs on codeproject: <http://www.codeproject.com/#Blogs>

Your far from writing content that can be considered learning material that's worth-while.
