Tidal Wave - August 22, 2012, 12:01 pm

I like the idea that you ship them from you instead of the company it avoids risks etc. :)

Nath - August 22, 2012, 12:03 pm

If you decide to do this in the UK at any time in the future let me know and ill take a mouse and keyboard and cover shipping. Would take a headset if you can get them too.

Mac Mill?r - August 22, 2012, 12:11 pm

i would love some astro's can you do 50LR on one of them?

Suhinder - August 22, 2012, 4:10 pm

The prices are non negotiable... Read OP.

R?porter - August 22, 2012, 4:32 pm

Wow you can SE Razers?

They're impossible for me now, you must be an expert.

GLWS

Suhinder - August 22, 2012, 5:12 pm

Look at the picture.

Yes, I can SE razer.

Mac Mill?r - August 22, 2012, 9:35 pm

honestly it depends on the person you get and how you interact, i have gotten 2-3 things from there, kinda easy if you ask me. But astro's are kind of hard if you know the way out of a box method.

Suhinder - August 22, 2012, 9:38 pm

My methodology is none of your concern.

If you're interested in purchasing, PM me.

If you're still looking for someone to do this then HMU.

Anyway, how much would you charge me for the A40's?

Bosta - *August 22, 2012, 9:50 pm*

If you can SE A50s and internationally ship them to the UK I am definitely interested, please PM me if you're up for this OP.

tyminatorx2 - *August 22, 2012, 9:58 pm*

Cunningham - *August 23, 2012, 6:07 pm*

Thody - *August 23, 2012, 9:23 pm*

I've seen a few people asking although no answer on the thread so I'll ask again and expect a PM. Can you ship to the UK if shipping fees are paid from my side.
