Thread: [What is the difference between white hat hackers and black hat hackers?](#)

DangerousKid - August 22, 2012, 1:42 pm

I don't see what's the difference between white hat hackers and black hat hackers.

jinrowolf - August 22, 2012, 1:48 pm

White hats hack to help, Black hats hack to gain. Put simply.

Cubs - August 22, 2012, 2:02 pm

White hat help people(clean their computers up and stay away from viruses) and Black Hat infect people(they want to cause mayhem and hurt people computers)

Sketches - August 22, 2012, 2:05 pm

White hat is for people who help. Black hat is for people who hack.

ven0m - August 22, 2012, 2:07 pm

WhiteHat hackers are group of computer enthusiastic who hack just to learn and to find the flaw of the system/program.

BlackHat hackers(also known as Crackers) uses the hacking knowledge to infect users to gain money, notoriety etc. They are reason you hear all the hacking myths on the media.

Also there's GreyHat who are the middleman of WhiteHat and Blackhat

Hinshi - August 23, 2012, 2:08 am

In a sense, you must be a Blackhat to be a good Whitehat, or at least think like a Blackhat to be a good Whitehat.

Obviously, from previous post's, you've concluded that a Blackhat hacker is the hacker that everyone THINKS a hacker is (well, every technology illiterate thinks a hacker is).

They are the one's that compromise things (Ex: SQL and XSS) and Whitehat hackers are the one's that keep these systems of sorts safe from the Blackhats.

In a essence you need to know both to be good at one.

Dr.Cooper - August 23, 2012, 8:48 am

My perception:-

Black = Dark = Evil = Moving towards dark.

White = Fair = Light = Moving towards light.

TheArchitect - December 24, 2019, 12:13 pm

black hackers have a bigger c00k

Hello buddy, be careful, this is an old thread (2012).

Try to don't dig up others ?
