the title : how to make 1500\$/month . the method really does it involve a new site that is just has been launched in the internet world so it's unsaturated for now, the layout of the ebook is pretty simple and what is beautiful in the method that is 100% whitehat wo you won't be geeting any risk in doing the method. it's require some brain but ahh everyone has that so why are you waiting just grab a copy and generate new income monthly.

Overall Total : 9/10 (Just for the layout)

He doesn't check it before to post, the site wich is posted into the e-book is a scam one because it's still not working since July 30 and he won't refund my money back cause he says that I've got 3 e-books for free, but it isn't like that.

I paid for this one and not for the others, he gave me the 2nd e-book as bonus following this one and the 3rd post into the PM reply but I didn't requested it, please this user isn't a legit one. Don't deal with him anymore, thanks!

You payed for this one.

If I refund it, you've got 3 e-books for free

You got this one, the second one, I said if you BUY this one, then you get it, so if I refund it, you've just got it for free, I sent you the third one as a good will gesture due to the fact the site is down for a little while.

Sales closed for now, might selling again at a later date.
