**Steffen** - August 28, 2012, 11:35 am

We're might gonna move to Germany soon.

**Steffen** - August 31, 2012, 8:06 am

Hi there, we have now changed from Romania to Germany for location, we have also added United states. All Romaina customers will be transfered to Germany soon, if you want to be on our United states server you can just open a ticket about it!

Thanks for using Icyhost's services! :)

**Tobe** - August 31, 2012, 10:49 am

Vouch for icyhost! Have been using them for a long time and when I had any problems/questions they answered right away. I would say that Icyhost is one of the best hostings I've tried so far. The respons time is good and same for up time. So ? from a happy customer!

**Steffen** - August 31, 2012, 2:08 pm

Thanks for your vouch Tobe! Great to have you as an customer of Icyhost.net and I hope you'll stick with us in the future :)

Been in Russia for some days.. And am now home and ready for questions ;)

**Steffen** - December 10, 2012, 10:04 am

People are afraid of being addicted to low prices combined with high quality..

**Steffen** - December 12, 2012, 8:30 am

People from Norway are not like other people. Just look:

[https://www.youtube.com/watch?v=RyUf7r\\_9yNs](https://www.youtube.com/watch?v=RyUf7r_9yNs)

That's why Icyhost is special! (in a good way)

Same with people from germany (?), they are just as special.. but in another way..

<https://www.youtube.com/watch?v=zd7c5tQCs1I>

We're not from Germany, so Icyhost is not special in a bad way..

**Steffen** - December 14, 2012, 12:58 pm

Many people are happy with Icyhost, why aren't you joining them? ;)

**Steffen** - December 21, 2012, 4:10 pm

We have no time for the world to end, we got Icyhost to manage.

**TheVoid** - December 21, 2012, 9:51 pm

What are the specs on your servers? Very interested!

EDIT: Also, it says on your ToS:

"Traffic Usage

All account plans come with a predetermined amount of traffic allowance. We monitor all accounts and bill \$1.00 for each gig of traffic exceeded. This amount is not prorated, meaning that 1 mb - 1 gig will be treated and billed as the same."

But your sales page says that the bandwidth is unmetered, I'm confused to what you are trying to sell, do we get unlimited bandwidth or not, and if not, what is the "predetermined amount of traffic tolerance?"

**Steffen** - December 22, 2012, 5:43 pm

Wops, I have edited it for now. Will go back later and look at it, thanks for pointing it out.

The terms have been copied from Fosty so there can be fails in it.
