Thread: [1k Posts feedback!](#)

Yes, it took me quite sometime, but I've made it. I came on this site in early 2011 when I was searching for Xbox Gamertags for sale on the internet. I lurked Hackforums all the way until December 2011, when I finally decided to make an account <3 Hackforums is by far the best forum I have ever been on. There is such a nice, tight knit community feeling on here, I love it :)

If you don't know much about me, I'm often in:

The Lounge
Innuendo
Sports World
Marketplace
Xbox Section
Gamertags
and the Music Section here on HF

I didn't come on here to plan on staying for long, or getting even 10 posts, but I totally came to love the entire concept of the site. Nearly every member I have ever met on this site has been a good contribution :) There is far too many members I would like to thank, but I would especially like to thank Bugga, because she upgraded my account to L33t many months ago, so congrats on staff!

Here are some links to many of my giveaways and contests I have to give back :)

1. Writing raps for anyone: <https://hackforums.net/showthread.php?tid=2760814>
2. Netflix Contest: <https://hackforums.net/showthread.php?tid=2800609>
3. Netflix Account Giveaways: <https://hackforums.net/showthread.php?tid=2800558>
4. Massive Free Samples Thread: <https://hackforums.net/showthread.php?tid=2538637>
5. Xbox Live Giveaway Contest: <https://hackforums.net/showthread.php?tid=2799797>

Thanks for reading everyone!

I also came here in the beginning for the Gamertag section. I believe the multitude of sections and the diversity of HackForums has been the key to its success. [Omniscient](#) is a brilliant individual, and the way he has handled HF is spectacular.

I have seen you around here and there, and I have to say you are doing quite good. Come out of your shell a bit and I'm sure HF will open you with warm arms. Be safe out there, it's a wild wild world.

I remember when you only had around 100 posts and you purchased an email or two from me.

You've come a long way. ?

Agreed, Omni has done a great job of bringing people from all aspects of the internet together. And thank you for the advice! :)
