Thread: [# bot + proxies 2012 NO SURVEYS/NO PM](#)

JoahTheron - August 25, 2012, 4:08 pm

Requirements:

Java only

Screenshot:[img]http://image-upload.de/image/1pjoGT/7c5e0a48a0.jpg[/img]

[Download](#)

[Virusotal .rar 0 / 42](#)

[Virusotal .jar 0 / 42](#)

If you test it please tell me if it works or not !! (just pm or reply)

Info:

This bot is programmed in java so many many machines can use the bot.

This Bot is programmed to click network links and your own links.

If more people use this Bot, you get more money !!

It works automatically and if its not clicking, the proxy dont reponse!

sry for my bad english but i hope you enjoy and use the bot. :)

kyle martindale - January 2, 2013, 7:38 am

File is deleted. Wow i keep seeing this in alot of downloads recently :/

Probably because it was from August of 2012...

redpois0n - January 3, 2013, 4:20 am

If someone is cool enough then they should make an adf.ly bot.

Anyways nice work if it still works.

JoahTheron - January 4, 2014, 6:22 am

it still works but it that bugged because i dont know what i did 1 year ago :D

PM me for the source code i just have the thread edition. Not the Firefox edition with Mozrepl

Nimmer - January 4, 2014, 6:23 am

Be careful with this, always run in Sandboxie.

JoahTheron - January 4, 2014, 6:24 am

Im currently programming a newer edition for adf.ly, but the problem is that you will get banned easily because they see only proxy traffic...

(Jan 4, 2014 07:23 AM)Nimmer Wrote: [\[CITE\]](#) Be careful with this, always run in Sandboxie. You dont have to be scared or anything it's 100% clean...
