Thread: [Cheapest Nexus 7 located in Canada?](#)

Well, I'm buying a Nexus 7 from future shop.

And I'd like to save about 20\$, all I need to do is find on for a cheaper price located in Canada.

I've been looking for a while, with no luck.

Anyway, if you could find on for me, it would really be awesome, thanks.

I'd like to find the 8gb version though.

For some reason they don't have it in their onlinestore.
