I'd like a DL link. With the following rant i dont expect it to get but FUCKDAMN im tired of all this "reply to get shit".

Just post the link damnit, it saves you 7 pages of pms. Back in my day hackforum didnt used to be like this.

I blame youtube and facebook for the "like" generations, who need confirmation and validation every second.

/rant

Thanks in advance

(Feb 25, 2013 06:08 AM)Master Hand Wrote: [\[CITE\]](#) Hey can you send me this e-book? I would like to begin hacking. Thank you

I just googled the title and the second link starts with [pdf], that is the file. ? I haven't read it yet though. I'm in the same boat, just getting started/trying to decide where to start. There are so many options, so it's a tough choice. I googled some other titles from another thread and just started reading The Basics of Hacking and Penetration Testing by P. Engebretson. So far it seems like a decent starting point, though I have yet to get into the meat of the book.
