Service Policy

1) All Backlinks Will Be Delivered Within 48 Hours

Late orders will be refunded completely, and will continue to be completed.

2) All Backlinks Are Permanent - Guaranteed

A disappearing link due to offline websites or pages being removed will be compensated with free backlinks!

3) Family Friendly - Non Adult Backlinks

We do not build backlinks through either adult or inappropriate websites. Your links come from genuine, family friend websites. We can provide adult backlinks upon request.

What are Blog Backlinks?

Our blog backlinks offer a variety of link types such as Trackbacks, Comment and Image backlinks. These are created across thousands of unique URLs and domains.

With this link format, serviced website is also crawled with our public search engine and the important URLs are collected. We then create the backlinks pointing towards these pages of your website, allowing authority to be spread throughout the entire infrastructure instead of simply the homepage or a select few URLs.

This is also a great method to index content within large sites, and will improve the backlink profile diversity of any website. They are also suitable tier 2 backlinks!

What are Contextual Backlinks?

The contextual links are of much higher quality, and feature your link exclusively within relevant content. No other website links will be added or are present.

The high quality content will be directly related to your website, and you can even suggest a content topic for us to use for your backlinks.

Frequently Asked Questions

How many Keywords am I allowed to select?

You can target an unlimited amount of keywords for all orders due to special wJunction promotional discount coupons.

How long will it take for me to receive my backlink report?

Typically all orders will be completed within 2 - 8 hours. If your order takes longer - view our 'on time' guarantee and get your order for free!

Do you accept adult or warez websites?

Yes, we do allow those sort of websites.

If you are paying with Paypal, you can head to our website and select any plan that you would like:

- 1) Once on the checkout page, you will want to apply the exclusive HackForums 50% off coupon: HFhalfoff
- 2) Also on this page, you will be prompted to provide your order details, just as website or url(s) and keywords.
- 3) Once Paypal has processed the payment, email confirmation will be sent to you, and your order will begin.
- 4) Your order will be trackable at <http://www.back-links.ca/sales/> and your URL report will be sent soon after.

Ahh. Rough --- I don't have the ability to change it can I?

I had a tonne of tabs open, and was trying to rework the thread to be compatible with hackforums.

Ahh. :(

Should I report the thread to receive assistance faster? Thanks for the tip off, probably would have taken me some time to notice.

and when that backlinks will show on alexa?

do you have eta avg?

ProductOfIsolation - August 31, 2012, 12:18 pm

Currently, we just remodeled our website and reseller program and are experiencing quite a large frequency of orders.

We would likely be able to deliver even the biggest order in no longer than eight hours however.

If your order is smaller, we can probably turn it around for you in approximately 30 minutes.

--

We do not ping our backlinks upon creation, but we do provide you with a complete URL report allowing you to easily ping them yourself.

We suggest MassPing.org

Irregardless, of if your URLs are pinged or not, you will noticed a routine increase in Alexa backlink count. However, it is important to note that Alexa only counts one backlink from each website or domain. Numerous backlinks from a single website will only count as one by Alexa's backlink counter.

No Return - September 1, 2012, 11:52 am

Just placed an order. This seems decent, and I figured it was pretty cheap so why not give it a shot, if it's not good, it didn't cost me much, and if it is, then it's a great deal. I'll let you know how it goes and review after awhile.

Looking forward to continuing to serve you guys!

mashemaru - September 12, 2012, 5:25 am

Interested in this, is it google panda & penguin safe? I have some questions and need some help.

ProductOfIsolation - September 12, 2012, 6:51 am

@mashemaru

Backlinks are the reason the search engine Google is so unique.

It is so revolved around backlinks, that originally, it was going to be called 'backrub' before being changed to 'Google'.

With that being said, it can only be improper practices which are to be avoided - otherwise you are at no loss to their algorithms.

--

We do not ping our backlinks upon creation, and we provide complete backlink URL reports. This can be used on a website such as Pings.info or MassPing.org in order to 'tell Google' of new content, or a change within a page -- more importantly, your newly placed backlink.

With this tool, you can gradually inform Google of your backlink order in an organic manner appropriate to your website and it's age. We suggest doing a small portion daily, in an increasingly organic manner.

Additionally, we also offer high quality backlink pyramids. These consist of high quality contextual backlinks, links that are placed within relevant content with

no other links are present within this content, except yours. As well, each page has onsite SEO for your keyword.

Each contextual backlink that is pointing to your website will receive several dozen blog backlinks to improve their transferable authority.

While not as effective for backlink profile diversity, this is phenomenal for targeting specific keywords and for new websites.

If you use a tool such as ahrefs.com - you can see each backlink has an associated authority with it.

With the backlink pyramid, the end result is a few hundred high authority backlinks pointing to your

website, instead of thousands carrying smaller authoritative values.

I apologize for the longer reply, but hope that I may have been able to answer your question. Feel free to use our website's contact form -- we will respond ASAP, usually within the hour.. Live support is coming soon!

mashemaru - September 12, 2012, 7:26 am

Thank you for the detailed explanations, Will purchase Enterprise Package this week. Also it has a google adword coupon right?

ProductOfIsolation - September 12, 2012, 7:48 am

@Mashe,

The Google AdWords offer is something we launched last night. It is only available while supplies last, but luckily Google has provided us with plenty!

If it is a deal breaker, we can arrange to get you one either way. ;)

Highest regards, and thank you for your interest in our services!

Hi winstone,

No problem! Currently, we have a few orders pending and some others through our reseller

program.

For orders placed this afternoon, we are expecting delivery to be within 12 - 14 hours.

If you need to change your order, let us know through our website's contact form. We will be sure to implement them right away!

Please be sure to include the payment transaction #ID which is included in your order confirmation email.

Thanks so much for your order!

Highest regards,

Hello tekniko, and thanks for the kind words! We also offer a variety of other payment methods, and there are a few details included in the bottom of the OP if you opt for this method.

We also have an affiliate program, which would allow you to earn both USD currency, and backlinks, by simply sharing coupons. Perhaps that might be of interest too!

crackafat - October 15, 2012, 9:09 pm

Hi,

What kind of contextual backlinks are these? For these prices and the volume I assume that the contextual links you are providing are wiki links. Is that correct?

Thank you.

ProductOfIsolation - October 17, 2012, 11:32 am

Hello crackafat,

You are correct.

These are content placed on different wikipedia websites. Currently we have around 6,5000 of these unique domains in our inventory.

Best regards,

ProductOfIsolation - October 20, 2012, 4:13 pm

There are still coupons available for free backlinks from the previous page.

:)

SimplyPro - October 23, 2012, 3:37 am

Just ordered this service and I will leave a review about this service later on.

SimplyPro - October 24, 2012, 11:28 am

I got my order done. I ordered it yesterday at 1:52PM and got the job done today at 4:33AM. Also I ordered 3000 and in the list I have over 4000, that's pretty cool, although I didn't check all of the links in the text file I found few that were not containing any backlinks or anything at all (maybe the page was deleted or something).

All in all I can say that the price is great, delivery time is great, backlinks are legit and this service is GREAT!

ProductOfIsolation - October 24, 2012, 3:49 pm

Thank you click, for both your purchase and your review!

Best regards,

Bought, on the site my order is "DONE" - after 2 days I checked with program. 0 link added. I am waiting until they really appear. If they don't appear in like 2-3 weeks I will post here because that means that is not working:(

ProductOfIsolation - November 3, 2012, 11:45 pm

Hi Joe,

Depending on which source you are using to count your backlinks, the results may differ. Alexa, for example, only counts one link per domain. Additionally, their count is only updated approximately once a week.

With our services, you can be assured a continual and gradual improvement in this ranking, dependent on the size of your order, for many months to come.

We suggest using ahrefs.com as a link counter; for further insight into both your link profiles, and their quality.

Also, be sure to 'ping' your backlinks afterward. This is essentially notifying Google of new content or changes on a page -- more specifically, your link.

Pinging a small portion of links daily is an ideal technique.

Thank you kindly for your purchase!
