Thread: [\[TuT\] Create an Emotional, Molten, Shattered Statue in Photoshop](#)

rosu - September 1, 2012, 6:13 am

Photo composites often require several Photoshop tools and techniques to achieve a desired effect. In this tutorial we will combine several photos to create a statue from a photo of a model. We will then explain how modify the statue to create cracks, and molten rock using layer masks, adjustments, and several blending and painting techniques. [Let's get started!](#)

Tutorial Details

Applications Used: Adobe Photoshop CS6
