For some reason I'm not trusting it, can you post a virustotal scan?

hiddensight.tk?...

hiddensight.tk?...
Well, if you are not trusting me, don't download it. If not a trusted member here, I don't know who is.
???

DeReK123 - September 2, 2012, 1:14 pm
I am trusting you and downloaded. Could you pm me with instructions how to use? New to the hacking scene so this is all confusing. I just made my RAT yesterday so this would be a great help. Thanks!

Rubber - September 2, 2012, 1:19 pm
Are you offering a direct link to the password?
I'm not the best at doing surveys, but I'll try if not.

hi man good crypter can i get the dl link pleas thanks

UK_ACC - September 23, 2012, 7:35 am

Fantastic work as always zero!! I always like your work's they always work and are always top class.

Any Idea why this keeps popping up??

See the end of this message for details on invoking
just-in-time (JIT) debugging instead of this dialog box.

JIT Debugging

To enable just-in-time (JIT) debugging, the .config file for this application or computer (machine.config) must have the

jitDebugging value set in the system.windows.forms section.
The application must also be compiled with debugging enabled.

For example:

```
<configuration>  
  <system.windows.forms jitDebugging="true" />  
</configuration>
```

When JIT debugging is enabled, any unhandled exception will be sent to the JIT debugger registered on the computer rather than be handled by this dialog box.
