Thread: [\[TUT\]Smudge Guide\[TUT\]](#)

St0rm - September 1, 2012, 8:13 pm

I just finished making this. I was bored and wanted too make this.

Infrac helped.

This isn't everything about smudging. It's just whatever I could think of at the moment.

By the way, can you guys let me know if you see any mistakes in anything? I didn't feel like checking.

Alside - September 1, 2012, 8:15 pm

Thanks I am trying to learn smudging. You should make more tutorials such as colors etc.

Kenn. - September 1, 2012, 8:36 pm

Amazing guide Neji, really helpful. I'm sure this will help others. Keep it up!

St0rm - September 2, 2012, 5:53 am

No problem guys. My main reason for making this was because a few people were having trouble in their smudges.

Glad you like it.

Damn. - September 2, 2012, 6:23 am

Good easy-to-follow tutorial. I'll try it sometime maybe etc

St0rm - September 2, 2012, 6:43 am

DerRex - September 3, 2012, 12:20 pm

I've been trying smudging for a while but yeah not the best at it, the guide's helpful but I still horrible at it.

Puller - September 3, 2012, 3:04 pm

You should probably put the graphic masters banner at the top of this and put Graphic Masters in the title, just to show that you guys are still active. Great tut btw :)

Sasori - September 3, 2012, 3:51 pm

Great tutorial! Oh I was just wondering, what's the name of that render of the anime girl when you were explaining the flow part?

razwanel - January 14, 2013, 5:42 am

for good smudging you need pro` smudge brushes, not all are good..

You don't need brushes at all to smudge.

Alice Dee - January 16, 2013, 11:48 pm

This is an amazing tutorial. Thank you so much for this. Hopefully I learn a lot from this :)

Svnday - January 17, 2013, 8:15 pm

Not bad smudge arts. I like the selection of colours. :) Smudge is always best for fire-based works.

Professor Z - February 9, 2013, 3:45 pm

Isn't this type of smudge for tablet only? If not, could you pm me your smudge settings? I've been having hell trying to create this type of smudge/style and it's irritating me.

4RG0S - February 10, 2013, 10:33 am

You know what, this just gave me motivation to try my very own background for my render for my very first signature. Thanks, hopefully I am good at it.

Yo, thanks a lot for taking time out to make this, both you and Infrac. Randomly strolled in here and of course I learned something that will probably be very useful at some point in my graphics career. ?
