Pr0. - September 2, 2012, 4:39 pm

DON'T TRUST HIM HE IS A CARDER

SEE THAT^ HE WRITES HE HAS 1800 AMERICAN EXPRESS CARDS. DON'T BUY FROM HIM, YOU WILL GET CAUGHT BY THE FBI.

His Pizza Thread Link: <https://hackforums.net/showthread.php?tid=2832747>

I also told him that i have some too, But i was really just joking with him, Because i wanted to see what else he had and get more info, Im warning you guys because i don't want anyone here to get caught by the FBI

hugsyou - September 2, 2012, 4:40 pm

1800 CC's? Probably fake or he get them off a public list, hence how he wants to check them.

Pr0. - September 2, 2012, 4:41 pm

Of course thats a fake, He has probably like 5 to 10 good working ones, that he will use to get you guys pizza.

hugsyou - September 2, 2012, 4:42 pm

Mmm..I could sure do for some pizza right now though..

Pocky - September 2, 2012, 4:42 pm

Pr0. - September 2, 2012, 4:45 pm

hugsyou - September 2, 2012, 4:46 pm

Pr0. - September 2, 2012, 4:54 pm

Okay, Ive PMed you the method, anyways this kid told me he was 13 LOL, when i talked to him on skype his voice sounded like like a girl. Anyways thats not the point, The point is the FBI will knock

on your door and arrest you if you buy pizza from that kid.

Belligerent - September 2, 2012, 4:55 pm

Since people are all saying bad things about him I have one more to add.

I took up his offer a while ago for free pizza and blah blah long story short pizza guy says he needs a signature to sign for the card or he needs to see the full digits of the card one of those two and I said it's legit he said if there's a problem I will come back sure enough there was a problem I was forced to buy it.

Blood - September 2, 2012, 5:39 pm

He is a carder, also posts fake giveaways to try to get people to advertise his products for free.

Hank Hill - September 2, 2012, 5:41 pm

OP, you are amazing for your relentless pursuit of getting this man banned.

F?y - September 2, 2012, 5:55 pm

OP Has had multiple accounts.

IP of his old accounts (Check his rep on those accounts, he's a carder)

IP of his current Skype:

You've had atleast 10 accounts and have scammed and left.

Seriously, get ur shit straight before accusing people. And you have no proof I (Crumble) card. Yes, I have cards. But does that mean I card?

And I have proof of you carding papa johns to your own house.

So, kindly fuck off.

Pr0. - September 2, 2012, 5:57 pm

Lolol don't listen to this troll also posting other peoples IP isn't allowed on the forums. so Fry u will get in trouble for that ;)

Andrew Downsend - September 2, 2012, 5:57 pm

He's trying awfully hard to prove that he doesn't card. Obviously he is carding, there isn't some super top secret free papa johns method. It is carded, simple as that.
