Thread: [Giving away my personal Steam account! has ARMA 2 and ARMA 2 OA!](#)

The Zodiac. - September 3, 2012, 7:17 am

Hi guys, basically I'm giving away my personal Steam account as I no longer have the time to play much games and such as I am starting college and also the fact that I only made a Steam account in the first place to play the popular mod DayZ. Also another reason is that DayZ has turned into shit if I'm being quite honest. All the hackers and scripters just really make the game unplayable... so I'm waiting for the standalone release.

As you may know you need ARMA 2 and ARMA 2 OA to play the DayZ mod. So this would be great for someone who is looking to play DayZ or just wants to play ARMA, or just wants a free steam account.

There is 3 simple rules you must follow in order to win my Steam account.

1. Subscribe to my youtube channel - www.youtube.com/RexXTheGamer (I only ask for you to subscribe there's no need to like,comment on my videos... unless you want to
2. After you have done rule 1 post HERE a number between 1-100. (I will be using random.org)
3. DO NOT POST TWICE. Also check before posting to see if anyone has already posted your number.

I will pick a number tomorrow night and I will PM the person who has won, so make sure your on! If your not on then I will pick someone else.

Proof of the account:
