Thread: [I will blast your video to over 70 Video sites for \\$5](#)

**The Mentor** - September 3, 2012, 12:28 pm

I can mass post video's over various platforms on 100s domain's ( I have over 150 so far). I say 70 in the title because you don't always get 100% completion. I will include with the video what ever link it is you want to use.

Things needed from you upon purchase:

1 Short Video with Title

1 Description with link

48 Hours to complete order

Things you will get from me:

Video Title and Description Spun (But still 100% readable)

Link Spun to use different case characters

70+ Video submission's to various site's (Mostly High PR)

Payment option's are as follows: PayPal, Payza, Liberty Reserve.

If you are interested just send me a PM.

Sorry no vouch copies, I have sold plenty of other things on here and all been legit. If your too poor to spend \$5, then idk what to tell you. I get customer's already, I don't need to prove myself. Now if I was offering a \$200 service then I could see doing a vouch copy, but it's \$5. I am already doing you a deal.

Thanks for the offer though.
