I'm looking to buy a good crypter, not a free one though i want one that's fud all the time. im asking whats the best in your guys humble opinion, and you can also suggest others. here's the links to the 4. so far i think TLTK and Data Protector are the best I'm Not Sure Though.

TLTK- <https://hackforums.net/showthread.php?tid=2611980>

Data Protector- <https://hackforums.net/showthread.php?tid=2524118>

Byte Crypter- <https://hackforums.net/showthread.php?tid=2632829>

THCrypter- <https://hackforums.net/showthread.php?tid=2342818>

Thanks for the help guys, probably gonna get TLTK or Dataprotector though as they have a better rep, pros and cons of each?
