RIN: Daughters of Mnemosyne

RIN: Daughters of Mnemosyne spans 6 episodes long, all 45 minutes long each. This anime is rated TV-MA and has a lot of violence, torture and sexual content so viewer discretion is advised.

"Rin Asogi is an immortal private detective with a thirst for vodka and a talent for attracting things that go in the night. In a series of nightmarish vignettes spanning sixty-five years, Rin's lush body is sadistically pierced, blown up, and mulched to a bloody pulp. The fiend behind her tortured existence is Apos, an eternal being obsessed with sacrificing Rin to Yggdrasil, the tree of all life. While Rin struggles to unravel the secrets of her endless agony, Apos lurks in the shadows, eager to tear into her ripe body and devour the memories of her countless lives. Rin's no stranger to the realm of the dead, but her next visit could last forever." -Funimation

Rating: I give this anime a 4/5 because it is very well thought out, the story is pretty amazing, mixing sadism, sci-fi and showing how the world changes from 1991-2056 through the eyes of the immortal detective Rin. It is on Netflix if you want to watch it.

I second this recommendation with a 4.5/5. Amazing animation and story, and you get to hear Kugimiya Rie moan.

Spoiler ([Click to View](#)) Fuck it's why I watched it in the first place

I third this recommendation with a 5/5. I truly loved this series. I didn't really know what to expect when I first started watching it.

It truly is unique, with a solid storyline. Also, I was impressed with the art work throughout the series and how it's changed to adapt to each decade.

I think this anime will bring out your inner sadistic self. ?

This was a pretty good series, not one of the best in my opinion but still worth watching. I think I downloaded it by accident by clicking on the wrong link but I kept watching it anyhow and it was a good mistake I made :).

A bit off topic but we both have Sun Tzu quotes, how funny.
