Here's a new song by me...

Hope you guys like it. :) It was fun to make... needs some small tweaks here and there, but I'll finalize that stuff if I ever decide to make a little EP or something.

Was that a custom drumloop? :) Or did you get it from a pack? I enjoyed the synths. But it was a little bit to much! Keep on producing mate!

The drumloop is the classic sample of "Amen, Brother" by The WinStons. It's up there with "Funky Drummer" and "It's a New Day" as far as classic breakbeats go.
