Thread: [What would you guys like to see in a crypter?](#)

Advanced - September 6, 2012, 6:22 pm

I'm currently working on a new crypter. I just want to state one thing first, the crypter is coded in .net and C#. It IS framework dependent. If you're going to flame because it's coded in .net, I suggest you leave now. This thread's sole purpose is for me to improve the crypter and accept suggestions. With that being said, I'll get further into the details of the crypter.

Features:

Low stub size of 30KB

Scantime / Runtime FUD

Custom Startup / Key configuration

Custom Injection / Process configuration

Unlimited Scanner

Typical features (antis, USB spread, etc.)

What packages should I offer? How much should each package be?

CRT - September 6, 2012, 6:38 pm

File Pumper (Adds bytes)

Automatic stub Update

Automatic version checker

Startup Persistence

Process Persistence

Compress Output

Reflector Protection

Delayed Execution

Fake Message (And Preview)

Automatic Output Obfuscation

Built-in Multi-Antivirus scanner

Some of the features you should consider adding.

Prices\$19.99 m/o

\$29.99 3 months

\$40 6 months

Something along those sale prices, I guess.

Advanced - September 6, 2012, 6:52 pm

(Sep 6, 2012 06:38 PM)?urt Wrote: [\[CITE\]](#) File Pumper (Adds bytes)

Automatic stub Update

Fake Message (And Preview)

Automatic Output Obfuscation

Built-in Multi-Antivirus scanner

Some of the features you should consider adding.

Prices\$19.99 m/o

\$29.99 3 months

\$40 6 months

Something along those sale prices, I guess. There is a built-in scanner. As for the message function, I find it useless because most RAT's & loggers already have that function. As for the rest, I will take them into consideration.

Thanks for your response! ?

Kaite The Bait - September 6, 2012, 7:01 pm

Polymorphic with unique stubs that can crypt any type of file

Advanced - September 6, 2012, 7:12 pm

(Sep 6, 2012 07:01 PM)Kaite The Bait Wrote: [\[CITE\]](#) Polymorphic with unique stubs that can crypt any type of file

Don't think I'm going to stick with that one. Once an AV submits the encrypted content it won't matter.

Kaite The Bait - September 6, 2012, 7:20 pm

(Sep 6, 2012 07:12 PM)Advanced™ Wrote: [\[CITE\]](#) Don't think I'm going to stick with that one. Once an AV submits the encrypted content it won't matter.

It would help disassembaly and reversing malware which will bring sales up.

Natas - September 6, 2012, 7:22 pm

Constant New FUD Stubs.

For it is most of the time FUD.

Advanced - September 6, 2012, 7:53 pm

(Sep 6, 2012 07:22 PM)Natas Wrote: [\[CITE\]](#) Constant New FUD Stubs.

For it is most of the time FUD.

I'll have pre-made stubs made. So that once its detected it'll be FUD quickly.

Here's a recent scan.

couponsaleshf - September 7, 2012, 2:04 am

I'd like to see someone who can stick by a project.

Makaveli3 - September 7, 2012, 2:46 am

Wait so what's going to happen with the OSX Crypter?

CRT - September 7, 2012, 6:02 am

(Sep 7, 2012 02:46 AM)Makaveli3 Wrote: [\[CITE\]](#) Wait so what's going to happen with the OSX Crypter?

I'm guessing he'll either migrate his current customers to his new crypter or just have two projects.

Advanced - September 7, 2012, 6:31 am

There will be two separate projects. Although OSX customers will receive a special discount for this crypter.

Here's a recent scan.

What about generic detections on your stub?

Advanced - September 7, 2012, 9:07 pm

(Sep 7, 2012 08:54 PM)Prince of Persia Wrote: [\[CITE\]](#) What about generic detections on your stub? That really depends on the icon & assembly used. So far, I've been getting FUD results.

logging*machine - September 7, 2012, 9:08 pm

I Know how to make a file pumper, Icon changer and assembly changer. You should add those :)

Advanced - September 7, 2012, 9:10 pm

(Sep 7, 2012 09:08 PM)Sunlight Wrote: [\[CITE\]](#) I Know how to make a file pumper, Icon changer and assembly changer. You should add those :)

There is a built in icon changer and assembly changer.

Bruce80 - September 8, 2012, 6:59 am

Same I just got this too I hope this will come with instruction on how to set up the Rats ? ?
File Binder (That Works?)

Extension Spoofer (Any extension, .mp3, .gif etc.)

Automatic EOF detection & support

Live 24/7 Support

I hope to get help on your old Crypter because I still haven't got a reply yet to know if there is another file binder I can use with your current Crypter or just update my old one to the new one when it comes out ?

I hope to see this working soon ?

????**Chicago Bulls** - September 8, 2012, 11:03 am

What do you mean two seperate projects..

Advanced - September 8, 2012, 12:18 pm

One project for "X" crypter.

The second project for "Y" crypter.

....

Unacknowledged - September 8, 2012, 12:19 pm

Pumper, AV Killer, Compatible with DC. Fully FUD.

Tubz - September 8, 2012, 1:59 pm

Don't bother thinking on what features you want to add, just make sure its FUD with good support and I'm sure it will be successful.

Velomatic - September 8, 2012, 2:06 pm

Make it a simple crypter. No fancy shit, just concentrate on keeping it FUD and compatible.

Ensure it's in a no dependencies language like C++ or ASM, maybe VB6.

A WORKING USG would be nice too.

This is just what I'd look for. I can't speak for the whole of HF.

(Sep 8, 2012 01:59 PM)Tubz Wrote: [\[CITE\]](#) Don't bother thinking on what features you want to add, just make sure its FUD with good support and I'm sure it will be successful.
Said it all.

Bruce80 - September 8, 2012, 2:27 pm

I just would it to work as I still haven't seen any proof mines working as his old project clams the binder works it doesn't I would just like a program to work what I paid for is that to hard to ask for and if you are willing to upgrade my crypter to the new ones and to be a tester that would be great.

Thank you .

TSWR™ - September 8, 2012, 8:33 pm

Vouch for Advanced. I've seen his new crypter and it's amazing.

KyleWTF - September 8, 2012, 8:42 pm

Do you have any idea if till will be Paradox compaitable?

Advanced - September 8, 2012, 8:45 pm

(Sep 8, 2012 08:42 PM)KyleWTF Wrote: [\[CITE\]](#) Do you have any idea if till will be Paradox compaitable?

It will most likely be. Paradox is coded in .net right?

KyleWTF - September 8, 2012, 9:12 pm

(Sep 8, 2012 08:45 PM)Advanced™ Wrote: [\[CITE\]](#) It will most likely be. Paradox is coded in .net right?

This is true. Just most crypters on the market don't support it.

Advanced - September 8, 2012, 9:28 pm

PM me a bin and I'll take a look at it.

No injection / start-up.

TSWR™ - September 10, 2012, 7:05 pm

Can't wait to release this should be about a couple more day before we release.

Advanced - September 12, 2012, 8:29 pm

Here's a scan link to the stub. Still FUD.

<http://elementscanner.net/?RE=61ef99dd37210e4e9757539e79ba4557>

--

Still FUD after a week..
